

Eliminate shrink.

Minimize out of stocks.

Increase sales and profits.

**Progressive
GROCER**

"The company's technology enables food retailers to better manage inventory and improve forecasting via advanced machine learning and other methods. Over 1,000 U.S. food retail stores have deployed its technology to cut food waste by nearly half to increase margins and boost profits." ~ [Read Full Article](#)

Advanced Ordering

Shelf Engine's AI platform automatically submits your store's ideal order to the vendor.

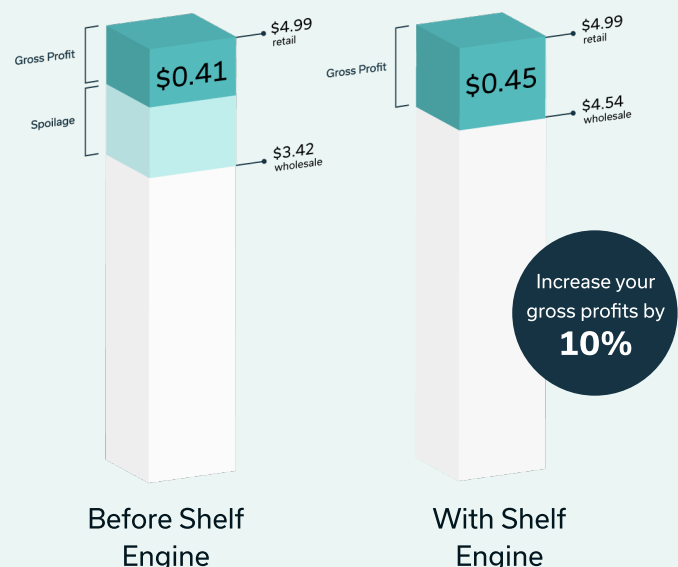

Guaranteed Sales

Seamless *scan based trade* integration (SBT). You don't pay for unsold product. It's that simple. We'll cover all shrink.

Take A Bite Out of Out-of-Stocks

We'll help you keep your shelves fully stocked and increase sales with the perfect order and our experienced field team.

Shrink Your Shrink

Shelf Engine's intelligent forecasting *guarantees sales* for highly perishables. Increase your top line and profits by eliminating shrink and out-of-stocks.

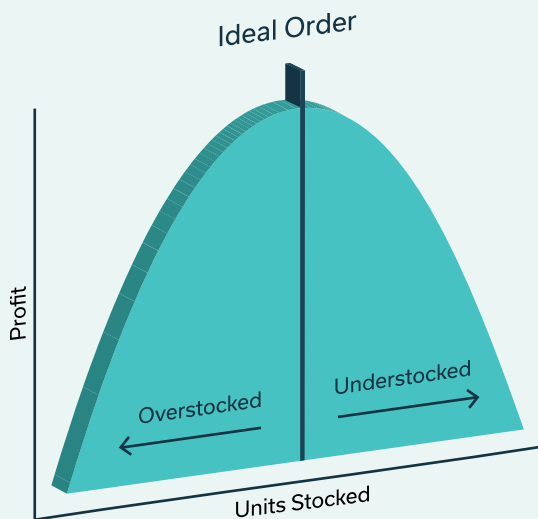

Over 40% of deli sandwiches and 35% of bread goes unsold.

Select grocers that have transformed their bottom line with Shelf Engine:

EREWON

Eliminate unnecessary shrink, unpredictable performance, and human bias from your ordering. Achieve the **Optimal Order** to minimize stockouts and maximize sales.

How much money are you leaving on the table? Connect with Shelf Engine to get your free performance analysis and try our **no-commitment pilot program** today!
