

Retailers see sales lift and gross margins expand while drastically reducing their environmental impact.

RETAILER A

Shelf Engine managed locations outperform non-Shelf Engine managed locations by double digits, fueling expansion from a 5-store pilot to over 350 stores nationwide and:

- **23% YoY category sales growth** in produce and deli
- **\$237 per store, per week** of labor savings for produce alone
- **90% in-stock rate**

RETAILER B

Shelf Engine seamlessly expanded its management of the cut fruit category from under 100 locations to over 1,000 in less than a year, achieving 3x market share gain and:

- **22% YoY category sales growth**, shattering sales records
- **\$8M annual profit gains** in cut fruit and deli
- **95% in-stock rate**

“

From day one, Shelf Engine has delivered on its promise to help us drive sales. This sales record is just the beginning.

Retail Partner

”

Across these enterprise accounts, Shelf Engine has saved 3.6M lbs. of food from entering landfills—**that's 3,743,355 units** of single-use plastic!

Shelf Engine forecasts and orders highly perishable foods for retailers at scale. Using AI, Shelf Engine predicts demand with high precision and automates the most accurate orders for every SKU, every day, in every store. We absorb 100% of shrink and do not charge a licensing fee.
