AI Powered - Holistic Work Anywhere Solution

Maximizing Productivity

- Standard features
- Features in green are addons
- Road Map

- Attendance
- Time based (Out of the box), Task and App usage based Supported
- Activity Tracking
- Productive & Non-Productive hours
- Login, session, logout
- Apps & Website Usage

- Idle Time
- Break Time Management
- Aux Management – Training, On Call, Offline activities etc.
- Leave Management
- Home, Office or Other Location

- Hybrid Analytics
- Drill down reports
- Department/Process wise comparisons
- Individual Performance
- Notification Triggers for Threshold breaches

AI Powered Security & Compliance

- Standard features
- Features in green are addons
- Road Map

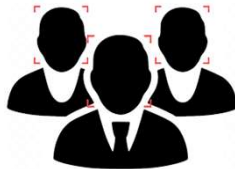

Facial Authentication
&
Multi Factor Auth (MFA)

Not At Desk

Mobile
Detection

Multiple Person
Detection

Unknown Person
Detection

Blurring
Face/Person/Background/ROI

- Artificial Intelligence : AI
 - Facial Authentication
 - Multiple Person Detection
 - Unknown Person
 - Object detection – Mobile,
 - Not At Desk
 - Image Blur – Privacy (refer appendix)
 - Action: Blackout & Lock Screen
 - Liveliness
 - Gesture Detection
 - Mood Detection
 - Laptop, Pen, Camera
- Screen Grab & Screen Recording
- Remediation Workflow
- Workforce Location
- Audit Trail
- PII Masking
- Live Monitoring (Person or Screen)

Collaboration & Communication

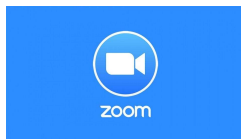

- Standard features
- Features in green are addons
- Road Map

- Chat History/Recording
- Presence Info
- Department wise Configuration
- Ability to control access e.g., Group Creation, Screen Recording, Send Attachments etc.
- Blacklisting of words/abuses
- Sentiment Analysis
- Comprehensive Analytics - Visualization & Reporting
- Highly Scalable – Public/Private Cloud and On-premise
- Integrated with wAnywhere as well standalone solution

Integrations with Popular Collaboration Tools

Productivity Enhancing Apps

- Standard features
- Features in green are addons
- Road Map

- Notice Board
- **Task Management (Basic)**
- Wellness
- Notes
- **Task Management (Advanced)**
- Timesheet & Revenue tracking
- Shift Management
- Training – wAnywhere Guru
- Reminder
- Vault (Document Storage)
- Device Info – Network, CPU, RAM etc.
- Device Location detection & History
- Blocking of Device
- Geo Fencing
- Remote Asset Management
- Ideation Zone
- Water Cooler
- Employee Profile – Contacts, Skills, Interests

Motivation & Engagement

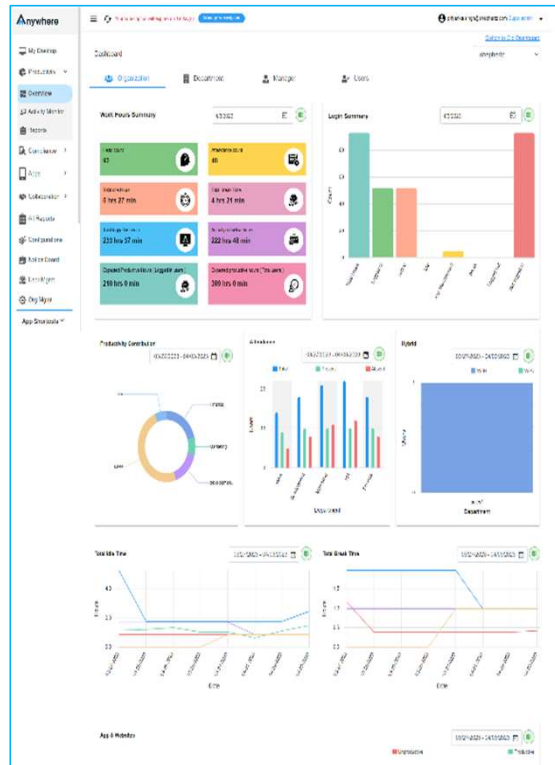

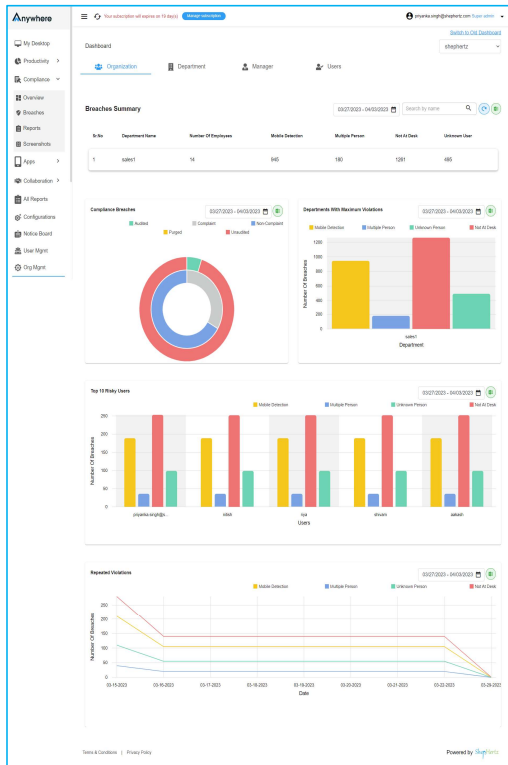

- Standard features
- Features in green are addons
- Road Map

- Gamification – Achievement, Badges, Leaderboards
- Innovation Hub
- Wellness
- Utilization : Under, Adequate, Over
- Prescriptive Analytics: Suggestions to team member where they can improve
- Water Cooler
- Training
- Social Profile

- Onboarding
- Metaverse
- Friday Events : Games e.g., Quiz
- Redeemable Points system

Dashboards – Visualization & Reporting

- Comprehensive Visualization and Reporting
- Drill down dashboards- Macro to Individual
- Exportable in Excel and CSV formats
- Notification & Alerts
- Scheduled Reports by Email
- APIs available for Integration with PowerBI & other visualization tools.

Highly Configurable – Department/Process Wise

- Standard features
- Features in green are addons
- Road Map

- Global as well as Department wise configurations
- Configurable Security Levels
 - Low
 - Medium
 - High
 - Ability to make Granular changes
- Organization & User Management
- Device Management
- AI features
- Productivity Parameters
- Break threshold & allocation
- Allowed Applications & Websites
- AD Directory, HRMS, Incident Mgmt. Integration etc.

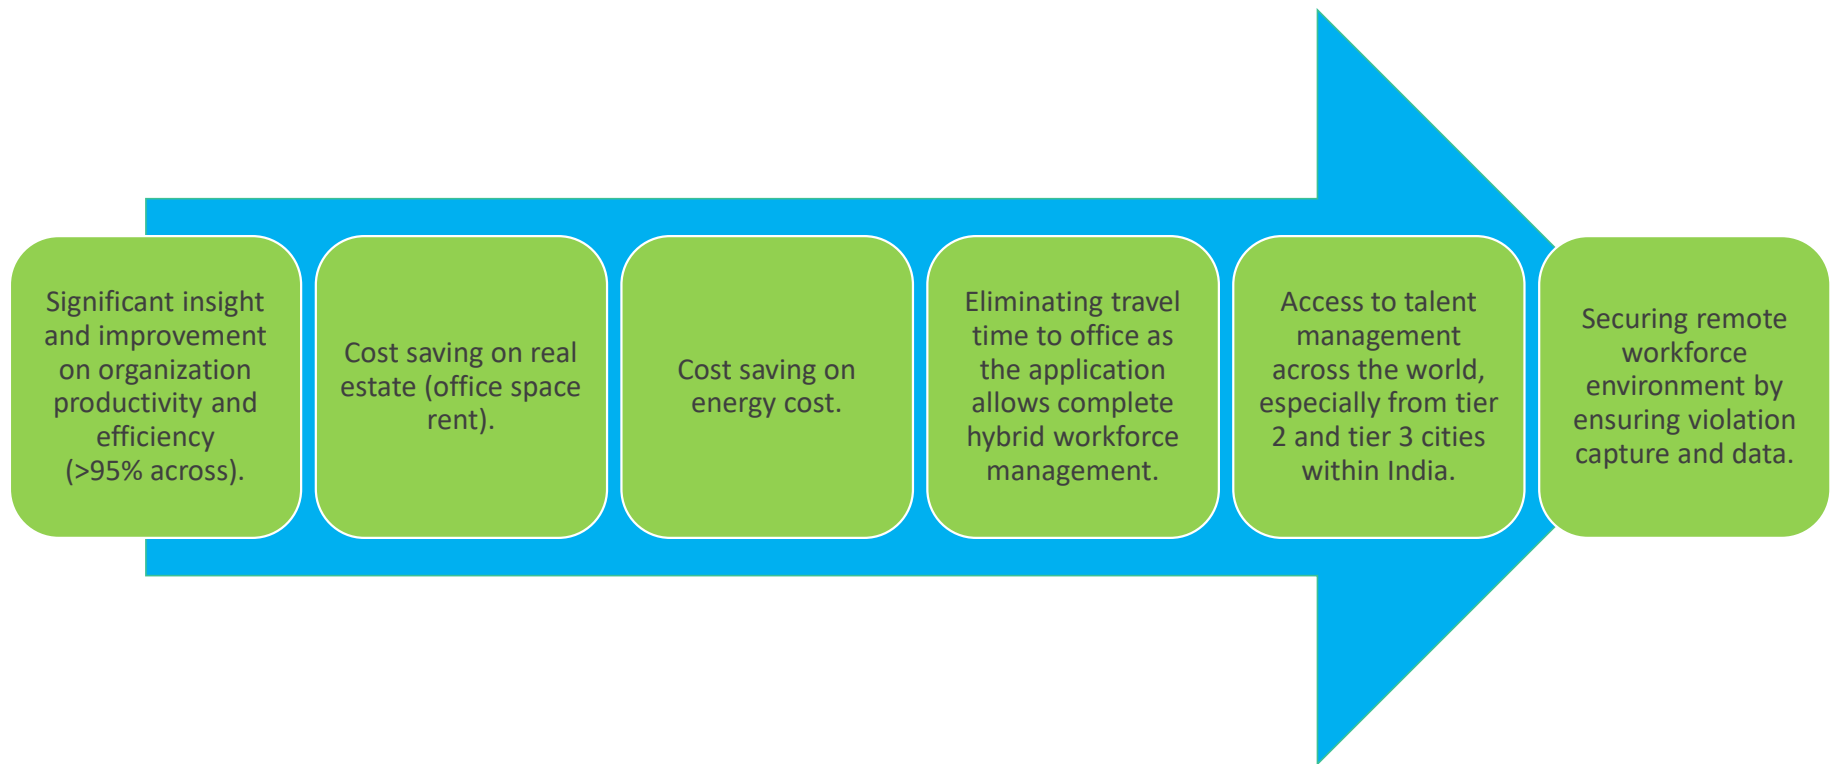

Compliance measurement for data security

Anywhere is VAPT certified by a 3rd party Vendor

Data in Motion: All communication is done on HTTPS

Data at Rest: Passwords are saved in an encrypted format. If any other info needs to be saved in an encrypted format it can be done based on requirements

Return On Investment

Masking PII/Confidential Data for Web based Products : Add On

Expiration (mm/yy)

Some more Addons

- **AI Based Prediction Analytics**

- Propensity to have lower or higher productivity
- Propensity to complete task on time
- Propensity to commit fraud – Credit card information, PII

- **HR & IT Help Desk Query BoT**
- Custom training for organization

- **Fun Activities**

- Calendar for activities
- Birthday events
- Friday events
- Knowledge sharing events

- **Gamification**

- **Earn Points on -**

- On Time task completion
- Completing stipulated working hours
- No Non Compliance

- **Leaderboards**

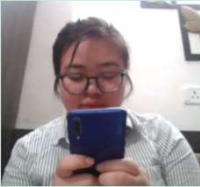

- Company wise
- Department wise
- Team wise

Appendix

Managing Privacy - AI

Privacy Technique	Application	Forensic evidence	Impact	Picture representation
Normal detection	All detection (not at desk, mobile, unknown person, multiple person)	Available	All faces/person available	
Full image blur / pixelated	All detection (not at desk, mobile, unknown person, multiple person)	Available	Only outline can be seen. Intensity of blur / pixelation can be configured	
Only face(s) or person get blurred / pixelated	Mobile, unknown person, multiple person	Available	Apart from region of interest (ROI) rest of the image is visible	
Only background is blurred	Mobile detection	Available	Background is blurred, but ROI is visible e.g. mobile detection	

Managing Privacy – Other provisions

Other provisions	Application	Forensic evidence	Impact
Disable AI	Can be done for individual detection or for all	Not Available	No AI detection will be done
AI is enabled but image saving is disabled while keeping email notification ON	Can be done for individual detection or for all	Not Available	No image will be saved
Inappropriate image purging – This is part of the workflow as standard feature	All detection (not at desk, mobile, unknown person, multiple person)	Not Available	Apart from region of interest (ROI) rest of the image is visible
Daily scheduled image purging	All detection (not at desk, mobile, unknown person, multiple person)	Available	All images will be purged based on scheduled time

Thank you
