Features:

✔ EdbMails helps securely migrate to Office 365 environments

EdbMails ensures the security of your sensitive data throughout the migration process. Certified with ISO 27001:2013 and fully GDPR compliant, we implement robust security measures, including SSL/TLS encryption for secure data transmission, OAuth 2.0 for secure authorization, and Multi-Factor Authentication (MFA) for added protection.

✔ Extensive support for all migration types

EdbMails supports a variety of Office 365 mailbox migration types to accommodate businesses of different sizes and preferences. For small to medium-sized businesses, cutover migrations are offered, allowing for the swift transfer of all mailboxes to Of365 in a single operation, minimizing downtime and enabling a quick transition.

✔ Auto mapping of mailboxes

EdbMails automatically maps source mailboxes to target mailboxes during office 365 migration by using key attributes such as display name, first name, last name, and email addresses to match user identities between the source and destination environments.

✔ Advanced migration software settings

EdbMails migration tool offers granular control over your data transfer with advanced filtering and migration settings. You can configure filters to migrate emails sent or received after, before, or within a specific date range, as well as based on sender or recipient addresses, subject keywords, attachment names, and email status such as read or unread. The software also allows you to exclude both standard and custom folders, ensuring the migration process is customized to meet your exact requirements.

✔ 24/7 Free Technical Support

EdbMails provides 24/7 technical support completely free of charge to ensure uninterrupted assistance throughout your migration process. Our dedicated team of migration specialists is always available to address any queries, provide guidance, and offer solutions whenever needed. Whether it's setting up your migration, resolving unexpected issues, or offering remote assistance, you can reach our experts via live chat or phone anytime, ensuring comprehensive support at every stage.
