Microsoft 365 Power Platform Assessment

The **SHI Power Platform Assessment** introduces you to the features and functionality of Microsoft 365's Power Platform to help you better analyze data, build solutions, automate processes, and create virtual agents.

During this 3-4-week assessment, our Microsoft Power Platform experts will evaluate your current forms and workflow environment, and help you plan your journey to the Microsoft 365 Power Platform.

We will:

- Evaluate your existing forms and workflow technologies
- Discuss migration and conversion options
- Explore how to build forms and apps with Power Apps
- Use Power Automate to automate organizational processes
- Demonstrate how Power BI can create a data driven culture with business intelligence
- Provide best practices and guidance for deploying solutions on the Power Platform
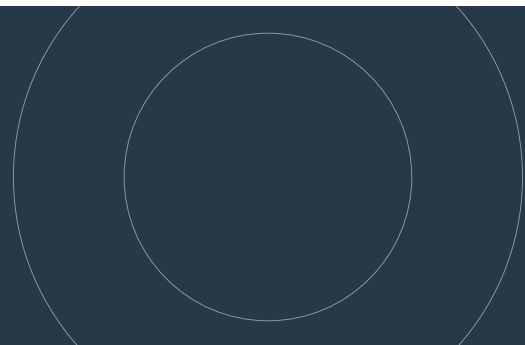

Power Platform Assessment benefits

- Improve employee productivity and collaboration
- Make informed, confident business decisions
- Build custom apps that solve business challenges
- Deliver solutions with greater efficiency, security, and compliance
- Gain a better understanding of the Power Platform's business
- Modernize business process automation on the Power Platform

Power Platform Assessment deliverables

- Planning sessions
- Findings and recommendations
