

Meet your one-stop industrial connectivity solution!

The BFC Gateway

First month for FREE!

Get seamless connectivity across all platforms

- The BFC Gateway (Brownfield Connectivity Gateway) addresses the challenge of integrating industrial systems with digital networks. It enables seamless connectivity and data integration between existing infrastructure and advanced Industrial Internet of Things (IIoT) platforms
- The BFC Gateway allows you to capitalize on your current infrastructure investments while leveraging the benefits of digital transformation to ensure competitiveness and sustainability in a dynamic market environment

→ Available for end customers, hyperscalers, solution partners and distributors.
