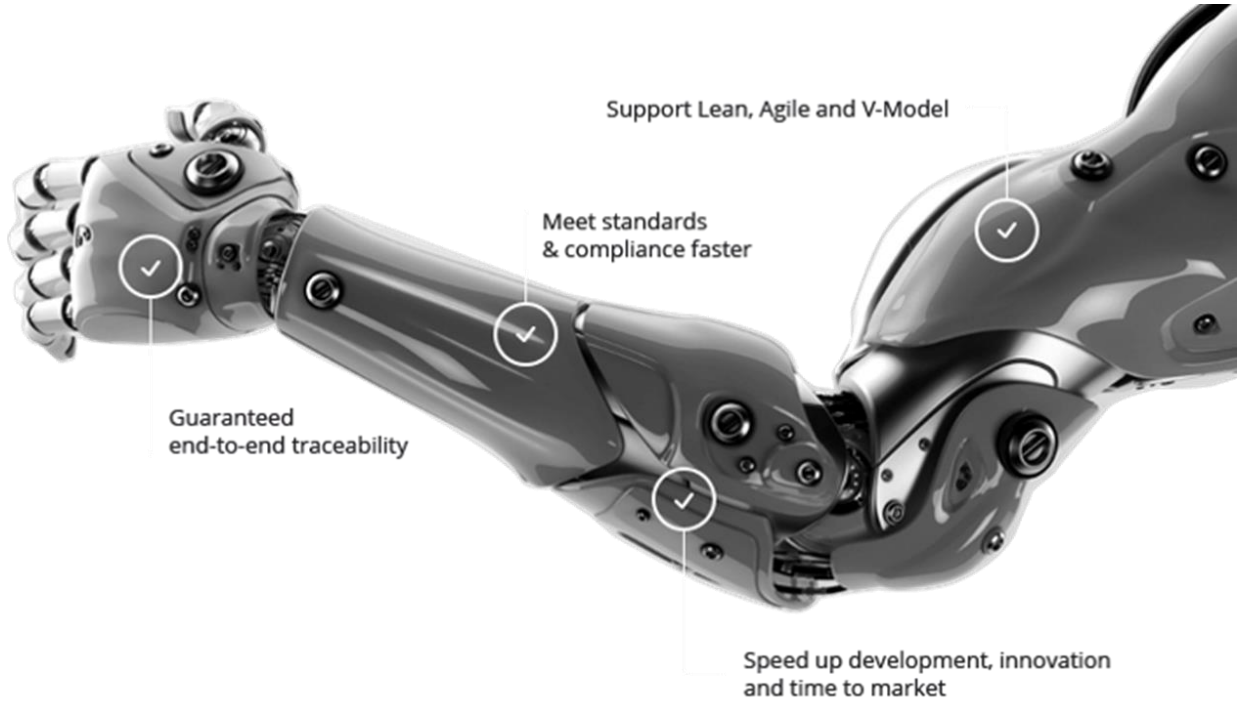
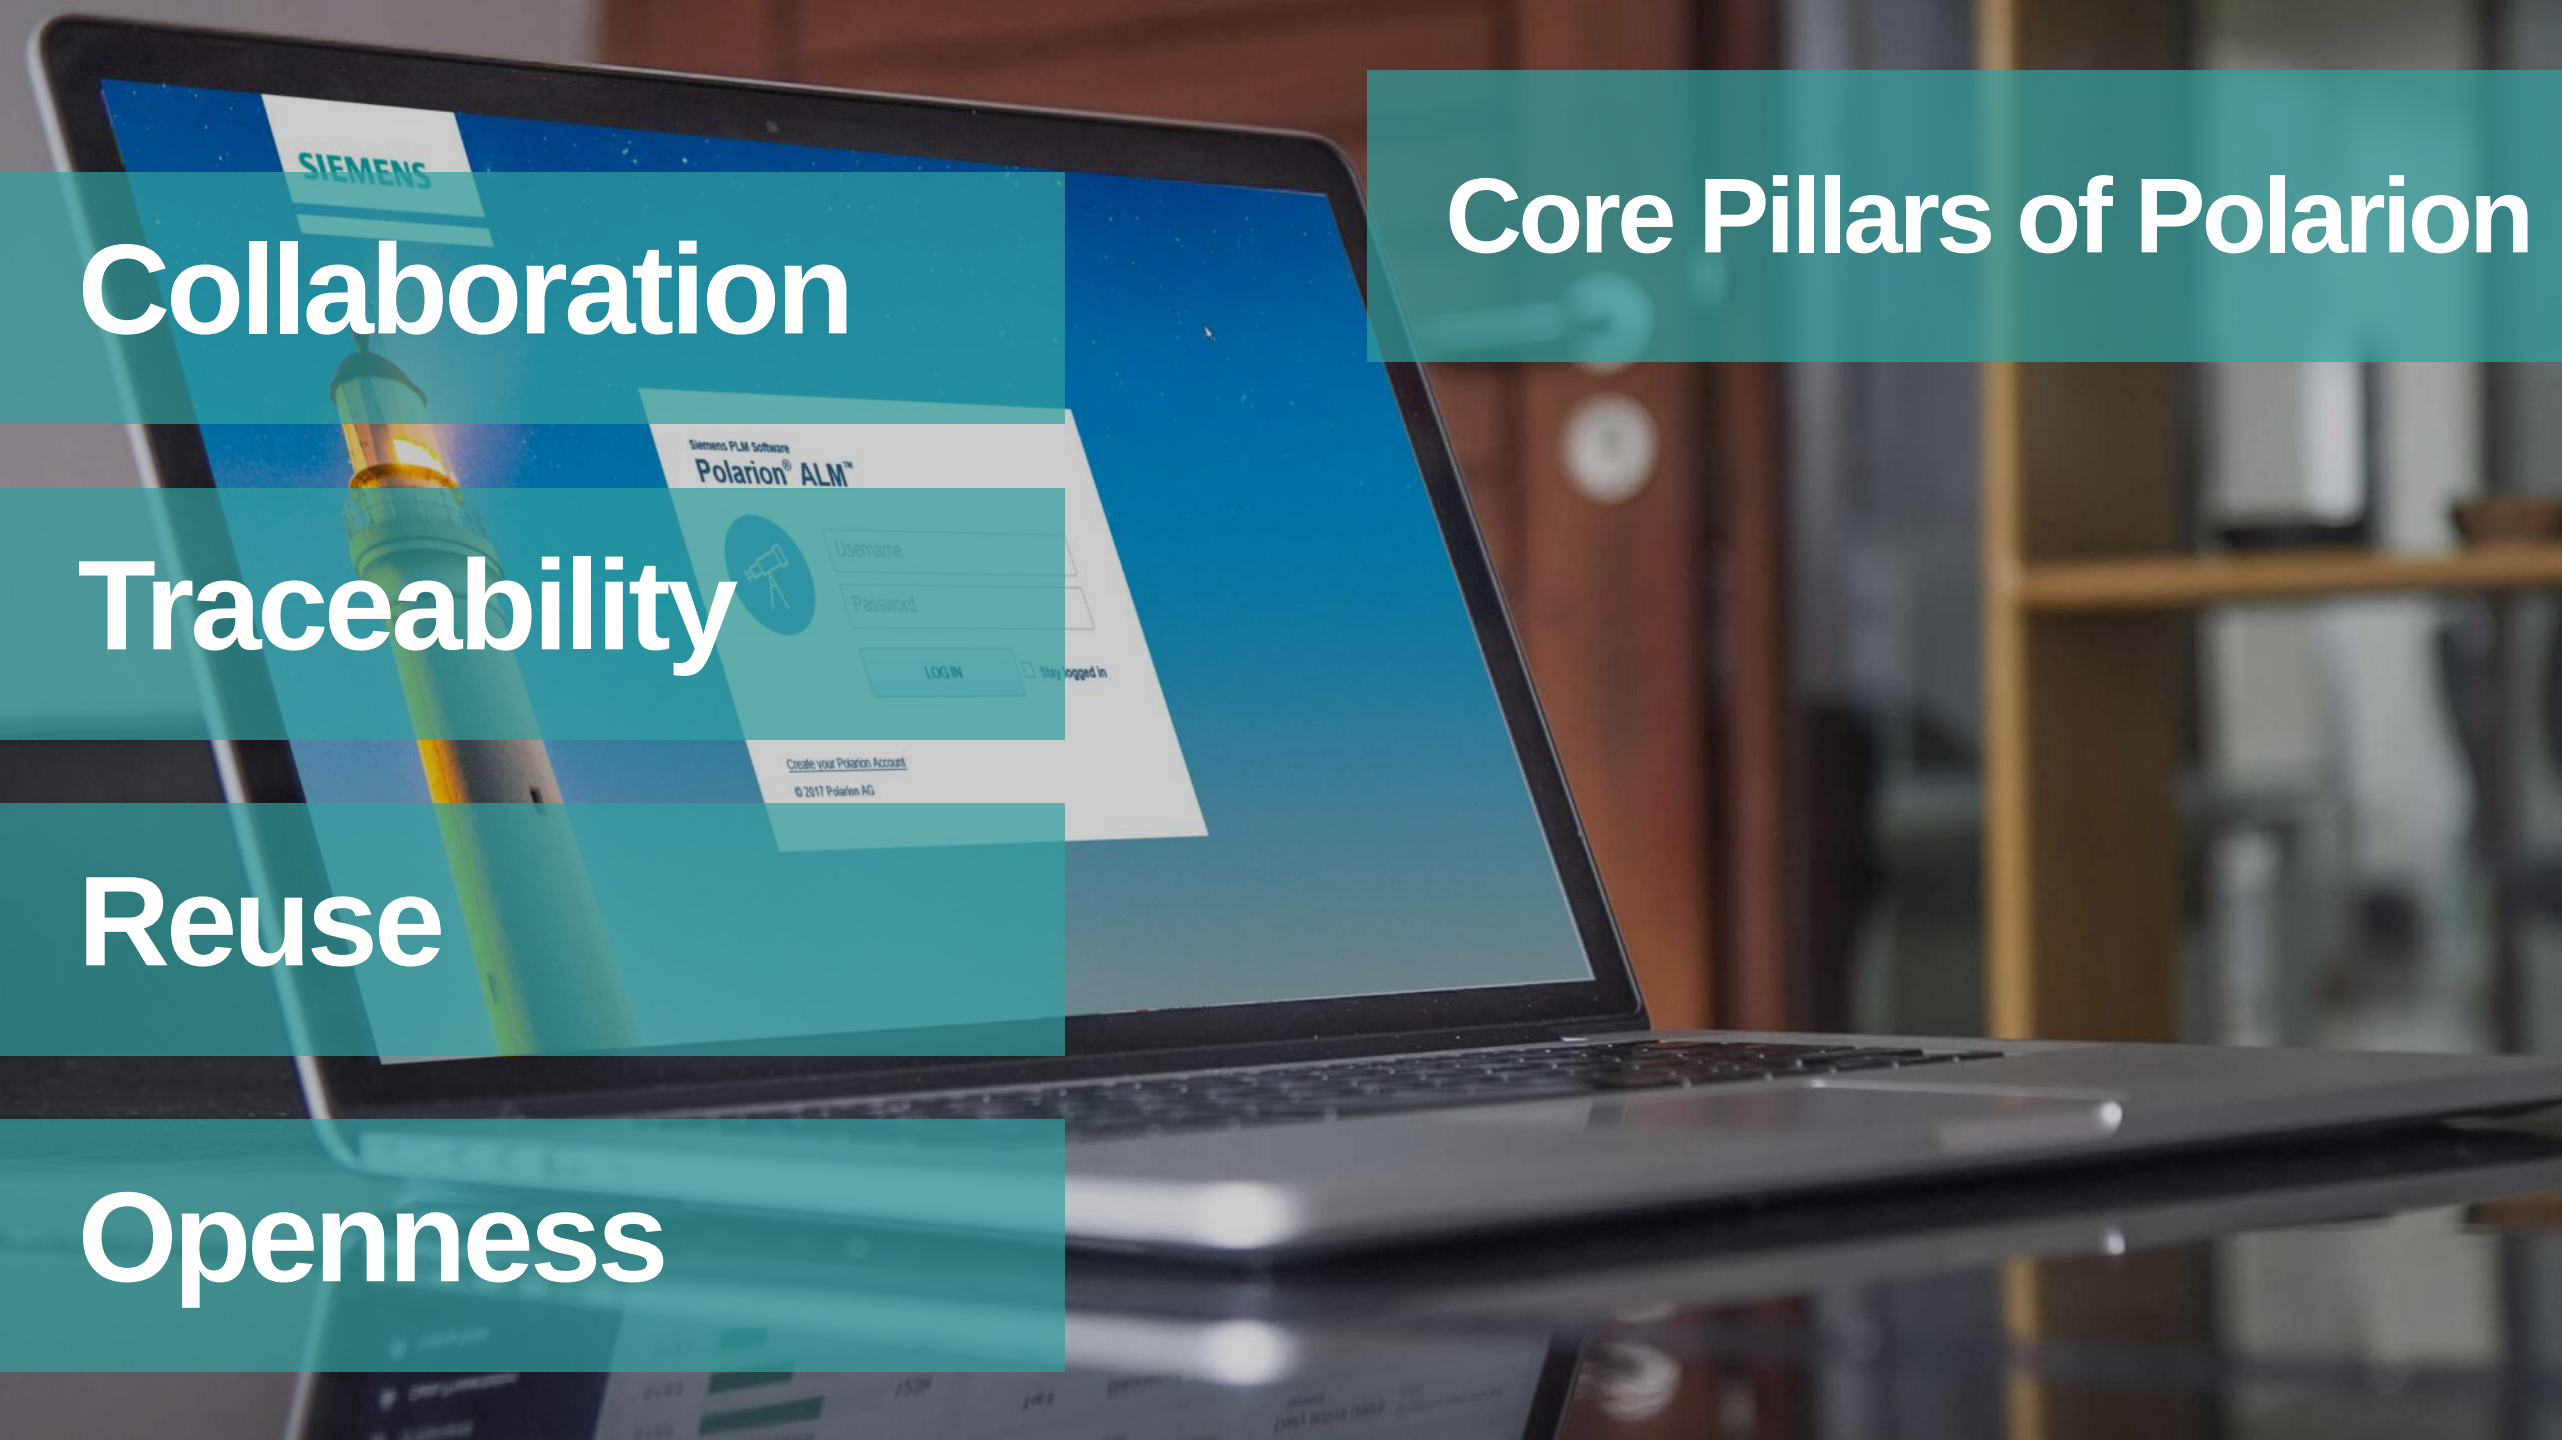
Polarion

Agile Engineering Lifecycle Management



SIEMENS

Core Pillars of Polarion



Collaboration

Traceability

Reuse

Openness

Collaboration

Traceability

Reuse

Openness

Collaborate on shared assets **easily** and **securely** via granular permission controls and robust configurable workflow automation.

Collaboration
Role based user interface

Fits to the people in your business

SIEMENS

Collaboration
Everything is versioned

Understand “Who”, “When”, “What” and “Why” for every change.

Document	Object
Configuration	Process

SIEMENS

Collaboration

Traceability

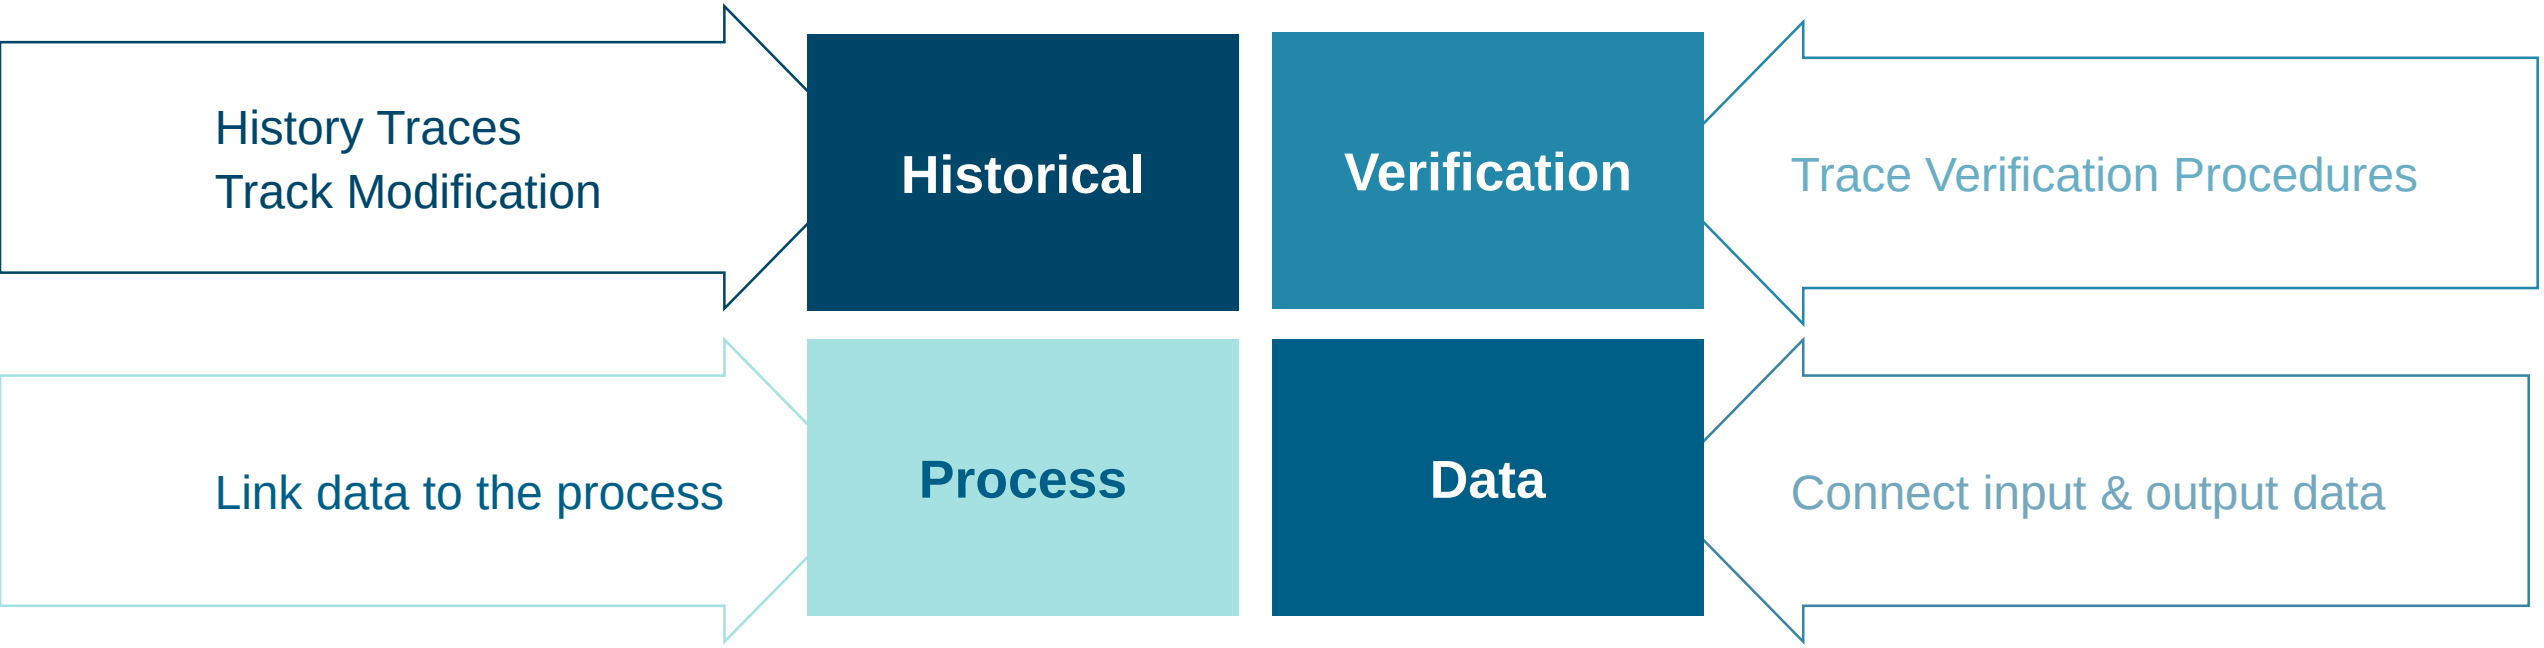
Reuse

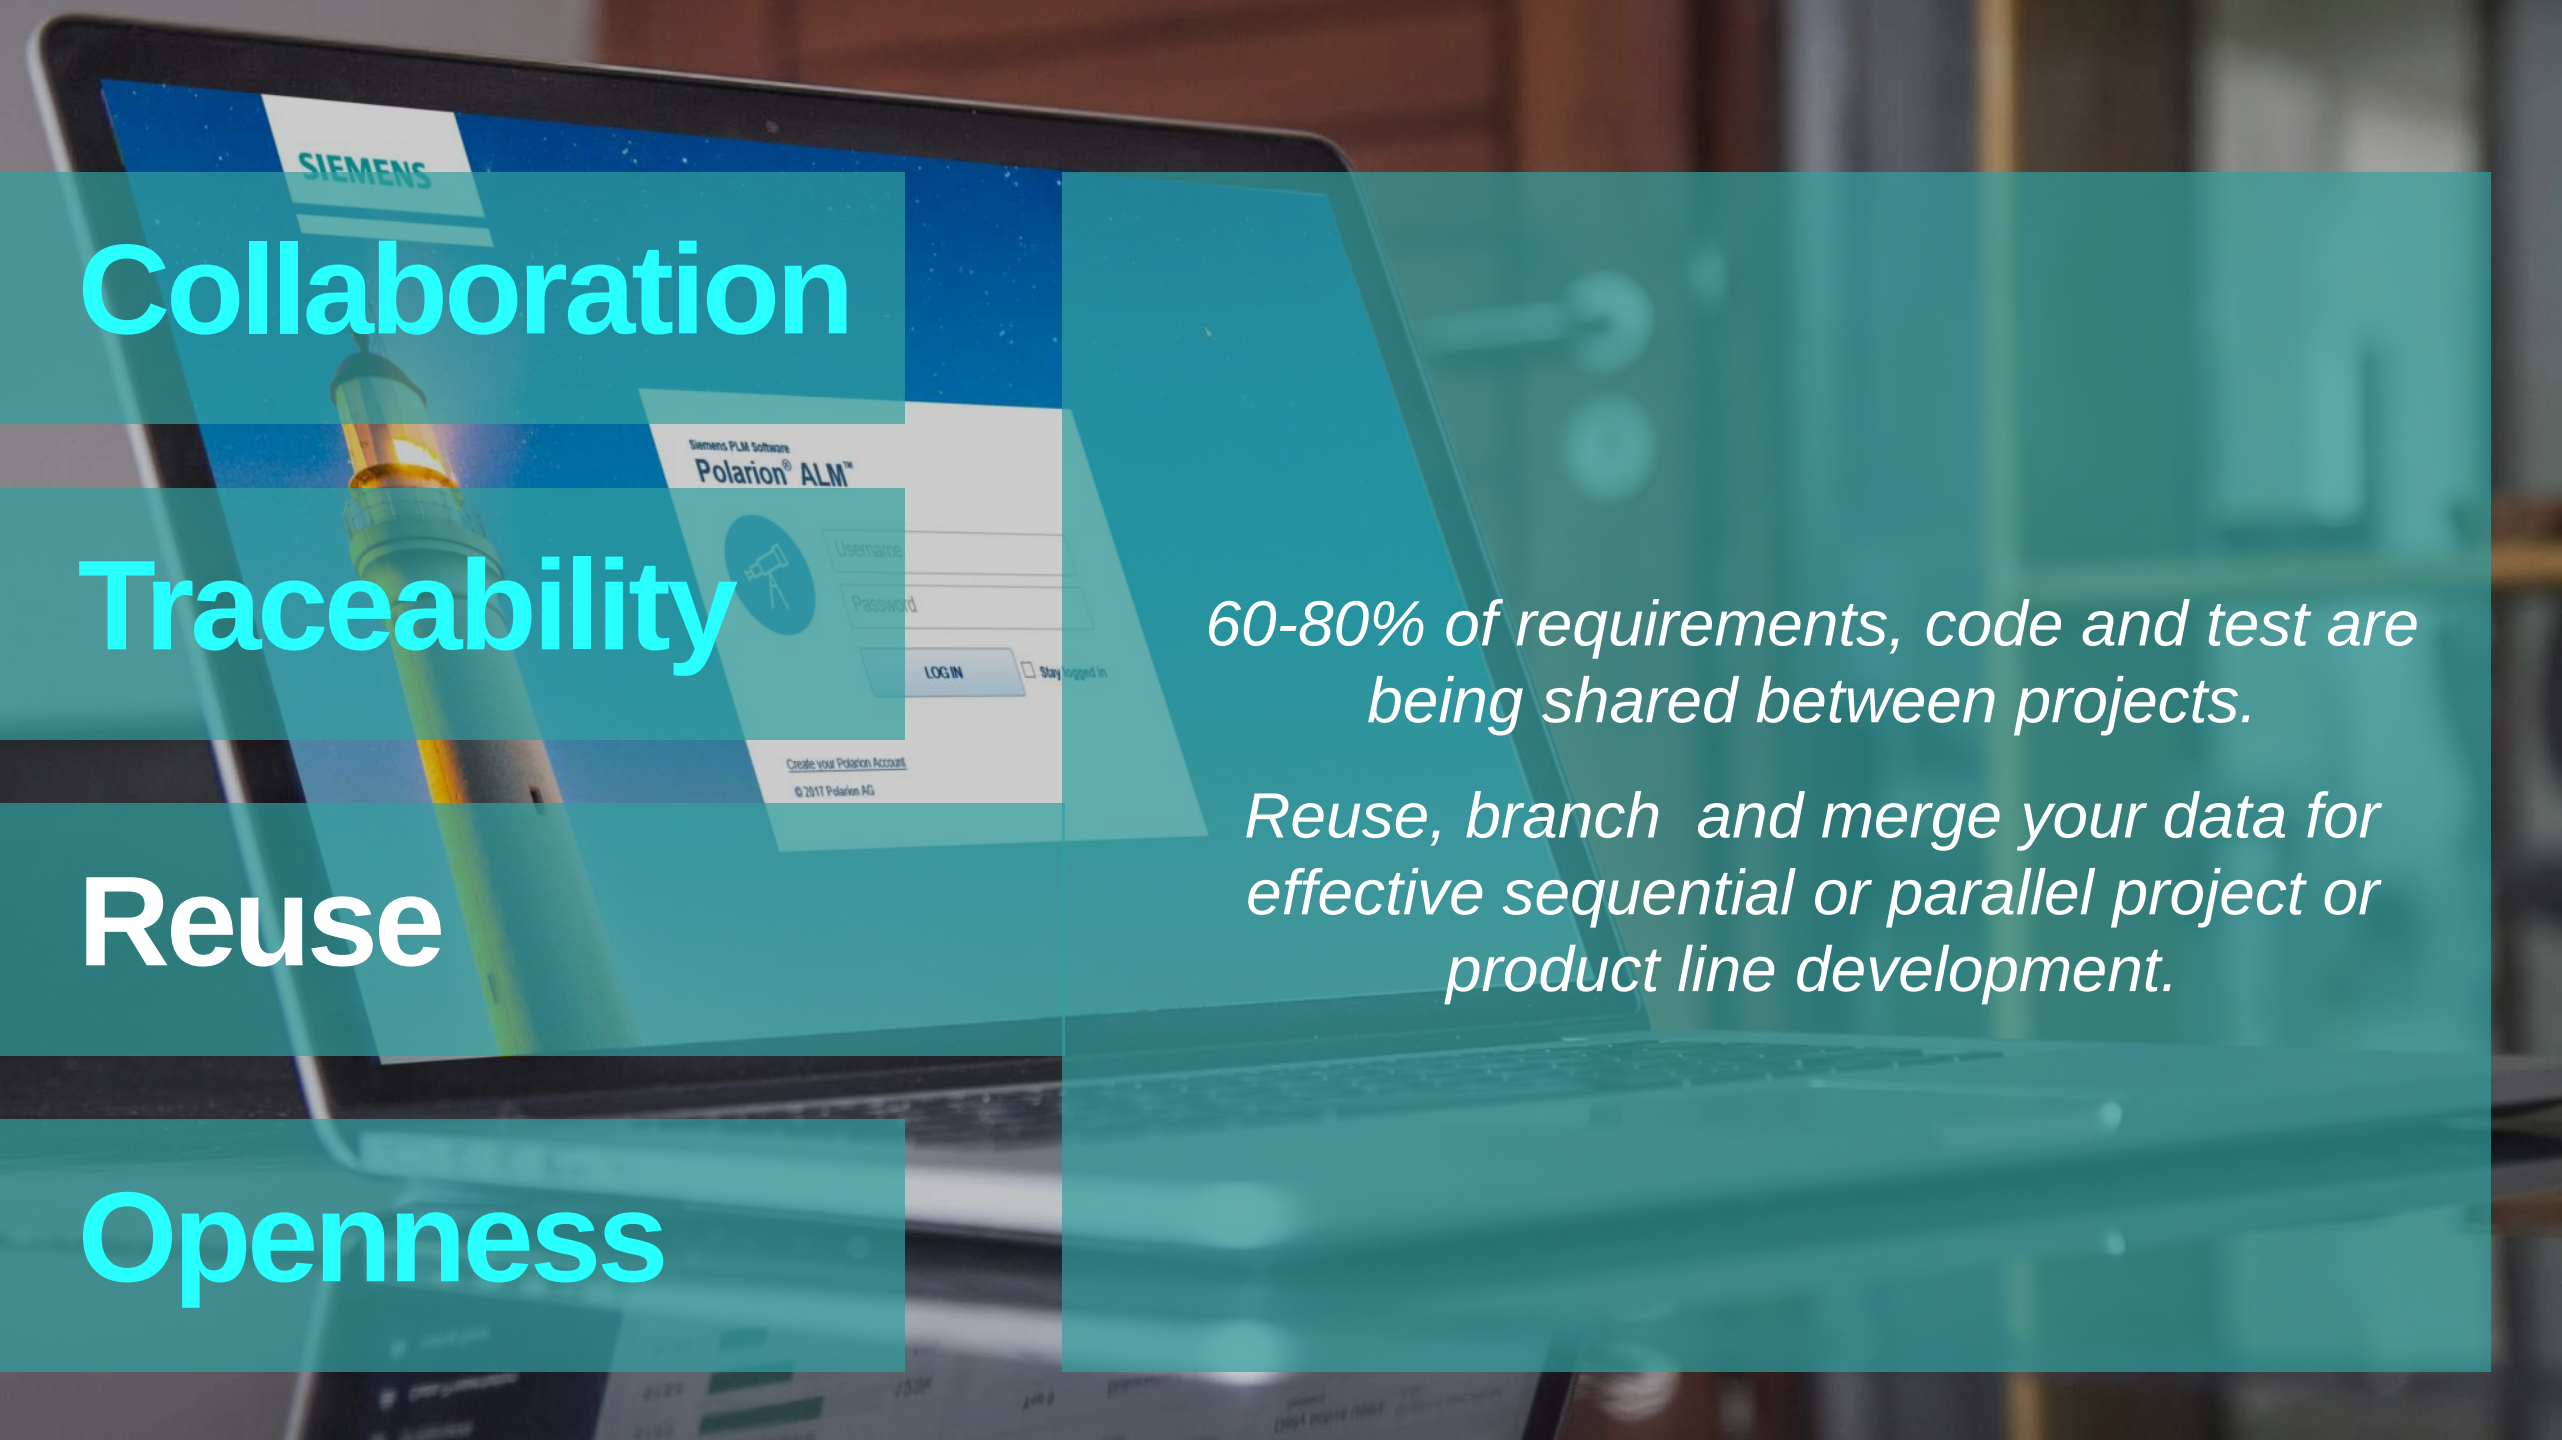
Openness

With Polarion you can ensure ***completeness of the information about every step in a development process****.*

Every step is just a click away - starting with modified lines of code up to high-level change requests

Traceability
Categorized Types





Collaboration

Traceability

Reuse

Openness

60-80% of requirements, code and test are being shared between projects.

Reuse, branch and merge your data for effective sequential or parallel project or product line development.

Reuse
What to reuse

Compliance	**Test Library**	**Code**
None Functional Requirements	**Design Specifications**	**And more…**

SIEMENS

Collaboration

Traceability

Reuse

Openness

”We realize that openness is key”

Siemens DI SW CEO Tony Hemmelgarn

Openness
Key Differentiator

Process Neutral

Suppliers Integration

Interoperability
