

SUPPLY CHAIN & MANUFACTURING CATALYST ASSESSMENT

Microsoft Dynamics is a serious contender to be your future platform of choice, helping you to operate more efficiently across your supply chain and manufacturing operation.

You need help to ensure you are making the right decision before fully investing in the project with clear advice and guidance from a trusted and leading Microsoft partner.

Using our industry leading implementation approach and industry templates combined with the Microsoft's Catalyst framework, Nexer advises and supports organisations clarify whether Microsoft Dynamics 365 is a good fit for their business needs and helps support the business case justification.

Delivered in as little as 3 weeks, this engagement provides the confidence in selecting Microsoft Dynamics 365 as your application of choice. Activities include:

- Mobilisation and executive discovery
- Business analysis and documentation
- Delivery of assessment including recommendations, summary of findings and future approach.

Key Outputs:

- Confirmation of the level of fit
- Confirmation of project objectives and points to support a business case
- High level technical architecture
- Recommended approach for the implementation
- Indicative fees for the project
- Other considerations

An aerial night photograph of a city skyline, likely Dubai, showing a river with a bridge and several illuminated skyscrapers. The image is used as a background for the Nexer logo and quote.

“Business transformation led by the digital world is what we do. We work with our clients to transform their businesses. We do not do it to our clients. In partnership, we strive to make your business better”.
