

OUR SERVICES: NEXER-IMPLEMENT365

Supporting our clients to deliver a more promising future

As a tech company of the future, we lead the digital revolution. We focus on our customers and meet their needs in digital transformation.

Nexer-Implement is Nexer's implementation engine, providing high quality projects delivered on time and to budget based on our proven Solution-First implementation framework. Nexer provide a highly qualified team of resources to successful deliver projects, across the Microsoft Dynamics stack of business applications.

Our client friendly and flexible approach stands us out from our competitors.

Benefits of our Service:

- **Nexer-Implement** are highly skilled and professional Dynamics 365 experts employed directly by Nexer. Nexer are one of Microsoft's leading partners with access to over 450 Dynamics experts globally.
- Our consultants are picked from the best in the industry, trained and supported to be leading experts.
- Access to a wide range of skills (including Functional SME Consultants, Solution Architects, Technical architects, Project managers and Developers).
- Access to onshore, nearshore and offshore resource.
- Competitive rates compared to the contract market.

“Everything we do is centered around our customers. And we prefer to call you partners, since we are in it for the long-haul. Nexer exists to help your business grow, thrive and find new opportunities”.
