

## Signicat Sign Portal brings Signicat's powerful electronic signing offering available to organizations of any size.

The portal facilitates signing of contracts, agreements and other important documents and offers verified electronic signatures through one simple online interface.

Signicat Sign Portal has been designed with ease of use in mind. Getting started with the solution does not require installing any software on your computer, or integrations. All you have to do is choose the subscription type, create an account and begin using the portal.

### Get started now

No integration or installation required

### Simple, yet advanced

Ease of use meets highest level of data security

### Signatures you can trust

Leverages Nordic eIDs for legally-binding contracts

### Mobile-friendly

Allow your customers to sign anywhere, any time

## Use case examples

### ✓ Sales

Agreements: customers, reseller, partner, support, licenses, renewals.

### ✓ Legal and Compliance

Non-disclosure agreements, data processing agreements.

### ✓ Administration and finance

Approval forms, rental agreements, procurement.

### ✓ HR

Employment contracts, enrolment in benefits schemes, non-disclosure agreements.

## How it works

Signicat Sign Portal verifies the identity of the signer by connecting to electronic ID's (eID), such as BankID, NemID and Mobiiivarmenne. This gives you the security of knowing who signed the document and when this happened, and allows you to safely digitise signing of even the most important and sensitive documents, without the need to print and scan, or send any papers in the mail.

## Security and compliance

- ✓ Signed documents can be downloaded as PAdES for full audit trail and evidence package.
- ✓ eIDAS: Signicat is a Qualified Trust Service Provider (QTSP) for issuing Time-Stamps.
- ✓ Hosted in public cloud (Azure), or private cloud (Basefarm) for enhanced security and compliance.
- ✓ Signicat acts as a data processor on behalf of the data controller (user), and has a DPA in place regulating the processing of data performed in the solutions used.
- ✓ Configurable data retention policy: automatic and ad hoc data deletion available.
- ✓ Support for secure transfer of signed documents to the recipients/signatories.

### Signicat Sign or Signicat Sign Portal – Which is right for you?

	Signicat Sign Portal	Signicat Sign
Number of users	Standard subscription (Professional) includes 10 seats. Additional seats can be purchased.	Unlimited.
