

# YOUR JOURNEY TOWARDS DIGITAL TRANSFORMATION WITH SII POLAND

Transform on your terms with Microsoft Business Applications. Enable people to do their best work. Gain actionable insights. Thrive with solutions expressly built for change.

As a Microsoft Solutions Partner for the Microsoft Cloud - leading Customer Engagement Solution (Dynamics 365) we offer flexible IT Cloud solutions within the scope of consulting, audits, infrastructure migration, and maintenance.

## About product

### Why Dynamics 365?

#### Modern applications

- Deliver new experiences and connect with a business's existing systems to allow organizations to digitally transform their way
- Applications that use mixed reality, the ability to take an application that overlays on the reality in front of the user, guide them through a business process like never before
- Connect to information from social networks, mobile devices, and micro-applications to drive intelligence and inform a more effective business process

#### Unified data and processes

- Enable business without silos
- Centralized data enables disparate groups to work together effectively with a single, trusted view of processes, relationships, and data
- Data connectors allow thousands of systems to bring their data to a single network

## Key use cases

### Sales

Respond to changing business requirements with a flexible platform to rapidly create new solutions and ensure old solutions are never truly finished.

### Talent

Extend your virtual team and coordinate faster with a consolidated view of team members, activities, and responsibilities.

#### Intelligence that delivers

- Actionable insight
- Data in the new world includes social, relationship, and productivity information in addition to insights generated by business systems
- The right solution requires a unified approach that allows companies to automatically leverage their data to decide and act in real-time with expanded analytics, predictive algorithms, and automated AI

#### An extensible environment

- Enable change
- The right solution establishes a data, communication, and application environment that makes it easy to evolve and extend existing business operations while introducing technologies that enable users to create solutions where no solution exists and to expand data analysis

### Service

Understand your customers better and respond more quickly by accessing internal and external relationship data.

### Marketing

Gain end-to-end visibility by connecting data from external markets, social, and legacy sources.

### Finance and operations

Increase your return on investment with Microsoft's agile and efficient cloud solution
