

AZURE CLOUD BACKUP

Azure cloud backup consulting – expert guidance in selecting the best cloud strategy and solutions for Azure

The key advantages of cloud backup:

- **Cost efficiency:** Reduces the need for physical storage and maintenance, lowering overall costs.
- **Scalability:** Easily scales to meet growing data needs without significant infrastructure changes.
- **Security:** Provides robust security features, including encryption and access controls, to protect data.
- **Reliability:** Ensures high availability and reliability with multiple data copies stored in different locations.
- **Compliance:** Helps meet regulatory and compliance requirements with built-in data retention policies.
- **Disaster recovery:** Facilitates quick recovery of data in case of disasters, minimizing downtime and data loss.
- **Automation:** Automates backup processes, reducing manual intervention and the risk of human error.
- **Integration:** Seamlessly integrates with other Azure services and on-premises environments for a unified backup solution.

Why our clients decide on our help

- ✓ Conduct a thorough assessment of existing services and environment to develop a tailored backup strategy
- ✓ Align backup solutions with security and compliance requirements
- ✓ Analyze available backup and disaster recovery services to identify the best-fit solutions
- ✓ Configure backup solutions and implement comprehensive monitoring
- ✓ Provide training and offer operational recommendations for ongoing service management

Offer – One-stop shop

Tangible Benefits / Desired Outcomes

- ✓ You take care of your business development - we take care of the cloud
- ✓ Our architects will support you in the latest technologies
- ✓ We are ready to maintain your infrastructure with dedicated support team

Why Sii

600 certified experts

Solution Architects, Network Engineers, Security Engineers, DevOps Architects, Data Engineers, Azure Administrators, Azure Developer, Cybersecurity Architects, D365 Consultants, Power BI Analysts

Leading cloud services

Microsoft Azure, Microsoft 365, Dynamics 365, Power Platform

Innovative industry solutions

For manufacturing banking, healthcare, real estate and public sectors

End-to-end Project Support

Mrom preliminary data analysis, target model creation, implementation on dedicated devices to maintenance
