UNLOCK THE POWER OF MICROSOFT LOW-CODE, NO-CODE, AND PRO-CODE TOOLS WITH SII

At Sii, we understand the diverse needs of modern businesses and offer a comprehensive suite of Microsoft tools to meet those needs.

Choose Sii to unlock the full power of Microsoft's ecosystem and transform your business today.

By leveraging the collective potential of no-code, low-code, and pro-code tools, Sii helps businesses drive sustainable progress and innovation.

No-Code Solutions have revolutionized the IT landscape by enabling non-technical users, often referred to as citizen developers, to create applications, automate processes, and analyze data without writing a single line of code:
- Power Apps: Visual editors for modeling data, designing dashboards.
- Business Process Flows: Standardize repetitive tasks with guided steps.

Low-Code Solutions offer a bridge allowing semi-technical users to create more complex applications and workflows:
- Custom Pages and Canvas Apps: Drag-and-drop interface.
- Power BI: Create dynamic visualizations and interactive dashboards.
- Power Automate: Simplify process automation across diverse platforms.
- Power Fx: A low-code programming language for adding advanced logic.

Pro-Code Solutions are essential for building robust, scalable, and highly customized applications. These solutions require programming expertise and provide the flexibility to unlock the full potential of Microsoft's suit:
- JavaScript/TypeScript Form Scripts: Add real-time validations and interactivity within forms.
- Power Apps Component Framework (PCF): custom components
- Plugins: Extend the capabilities of Microsoft Dynamics 365 with custom business logic and automation.

Why choose Sii?
At Sii, we believe in the harmony of no-code, low-code, and pro-code solutions. Our skilled developers ensure businesses can stay agile while maintaining control, security, and the ability to scale.
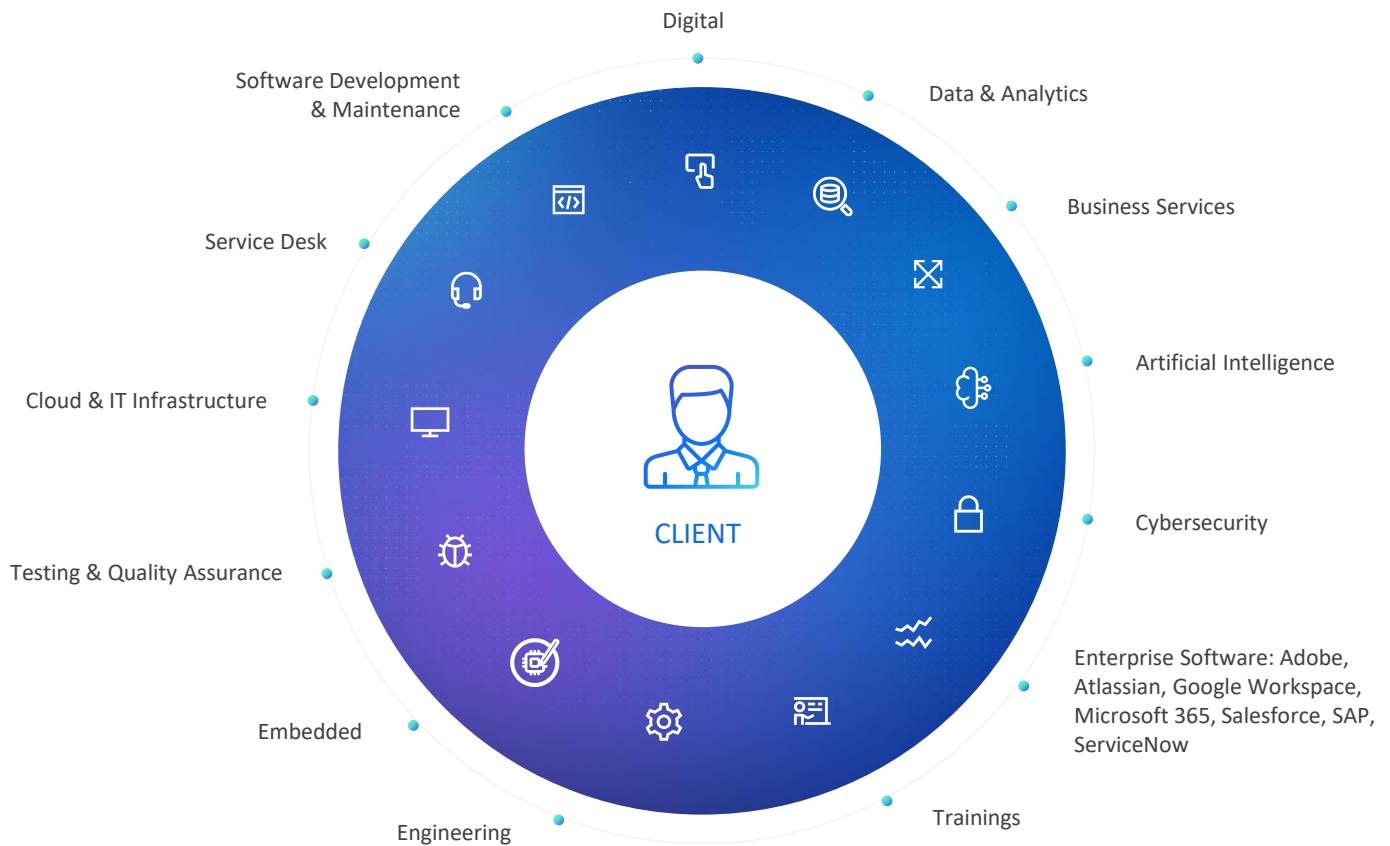

Real-World Application:
Imagine a retail chain enhancing customer support with a comprehensive solution that handles service tickets, integrates with their inventory system, and provides predictive insights:
- ✓ No-Code: Configure a centralized customer service app using Power Apps.
- ✓ Low-Code: Automate escalations with Power Automate.
- ✓ Pro-Code: Customize the frontend and backend for advanced features using TypeScript and Azure Machine Learning.

Tangible Benefits / Desired Outcomes

✓ You take care of your business development - we take care of the cloud

✓ Our architects will support you in the latest technologies

✓ We are ready to maintain your infrastructure with dedicated support team

Why Sii

600 certifed experts

Solution Architects, Network Engineers, Security Engineers, DevOps Architects, Data Engineers, Azure Administrators, Azure Developer, Cybersecurity Artchitects, D365 Consultants, Power BI Analysts

Leading cloud services

Microsoft Azure, Microsoft 365, Dynamics 365, Power Platform

Innovative industry solutions

For manufacturing banking, healthcare, real estate and public sectors

End-to-end Project Support

Mrom preliminary data analysis, target model creation, implementation on dedicated devices to maintenance
