

POWER BI 2 DAYS CONSULTING WORKSHOP

Workshops will provide customers with insight into how organizations are leveraging the Microsoft Power BI to improve business performance

The offer is addressed to organizations that already have Power BI in their stack or they just consider the implementation of Power BI or any other data visualization tool. We offer 2 Days workshop that will review the current situation with data management and we will provide you a clear and documented recommendation about how you should improve it in the future.

The key outcome will be a roadmap for the enhancement of your data approach and transformation of your organization into a data-driven company with the usage of Power BI.

Day 1:

1. Users Needs
2. Measures
3. Dashboard Design
4. Data Source
5. Data Refreshment
6. Key components and features
7. Cloud Tennant

Day 2:

1. Import & Transform your data
2. Relations design
3. Build a dashboard
4. Data modeling
5. Configuring visualizations
6. Troubleshooting issues

We offer a Power BI workshop in order to review your current Business Intelligence stack as well as data management policy.

Final Price is based on the scope of work. Customer might demand that some report development might be based on their own data or examples shall come from their industry - therefore we have put an extra effort for this tailor made solution - this might increase the price. This why the final price is not fixed.

Offer – One-stop shop
