MIGRATE FROM DYNAMICS GP TO DYNAMICS 365 FINANCE & OPERATIONS

Have you outgrown GP? Tired of managing too many integrations or third-party products?

For larger companies using Dynamics GP, or those with more broad or complex needs, Sikich offers you a clear path forward with Microsoft Dynamics 365 Finance & Operations (now Finance & Supply Chain Management - F&SCM).

Sikich works with both GP and Finance & Supply Chain Management and has for many years – earning the trust of over 1,000 Dynamics clients. With a packaged methodology, built by cross-trained specialists, we take the guesswork out of the migration process for you.

STEP TO MICROSOFT DYNAMICS 365 F&SCM TO:

- **Experience** the extended features and benefits of Microsoft's flagship business application
- **Eliminate** the costs and headaches of an on-premise IT infrastructure
- **Reduce** the number of third-party apps and integrations you need
- **Take advantage of** the native integration with other Microsoft tools like Excel, Outlook and Teams
- **Leverage** built-in Business Intelligence, Analytics and Reporting capabilities
- **Achieve** a "single source of truth" by bringing all your data into a single platform
- **Become** more efficient using workflow tools and perfectly engineered business processes
- **Stay up to date** with no more disruptive upgrades

HOW THE SIKICH HEADSTART SERVICE IMPLEMENTATION AND MIGRATION APPROACH WORKS:

- Sikich has created a formal migration process, backed up by our years of experience with both products and migrating clients between the two.
- Your team will participate in series of GP installation reviews and structured workshops, typically taking 5 to 10 business days.
- In less than a month, get the answers to all your migration questions from your customized Standard Migration Assessment (SMA) Report.
- Walk away with the information you need to map your journey to Dynamics 365 F&SCM, complete with built in industry best practices.

INITIATION + SMA

- Full technical discovery of existing systems
- Subject Matter Expert workshops
- Documentation of key business needs and requirements
- Identification of Integration, Customization, ISV and Reporting needs
- Highlight major nuances and special needs

REPORT AND RECOMMENDED

- Report of findings
- Full set of recommendations
- Formal results presentation including license needs, project estimates and recommended timelines
- Solution Blueprint

PROJECT INITIATION AND EXECUTION

- We'll help you secure your licenses, taking advantage of the best offers available from Microsoft
- Get your project started with a straightforward and easy to understand Statement of Work

LEVERAGE THE SIKICH EXPERTS TO HELP

- Backed with **years of experience** with GP and D365 F&SCM. And we're bi-lingual - we speak both GP and F&SCM.
- A **collaborative approach** that ensures we understand what's important to you.
- We understand license migration. We can help you **get the best deal for your new subscription licensing**.
- Our methods recognize the importance of **change management** – and our team can help navigate and guide yours through the process.
- Our training service can draw the parallels between the new and the old, **speeding the time to value**.
