## CLOUD & INFRASTRUCTURE

## MICROSOFT AZURE APPLICATION HOSTING DESIGN SERVICE 1-WEEK ASSESSMENT
### SIKICH CLOUD TRANSFORMATION SERVICES TO EXPAND YOUR IT CAPABILITIES

## SUMMARY

An Azure application hosting design to the customers application will be created based on the customers' requirements. The design will include a structural design, monthly estimated cost & estimated installation services.

## DESCRIPTION

In this 1-Week Assessment, Sikich will engage with the customers to identify the client's business requirements, including:

- Functional Requirements
- Performance
- High Availability
- Scalability
- Disaster Recovery

An Azure application hosting design will be created based on the customers' requirements. The design will include:

| DESIGN DESCRIPTION | SUBSCRIPTION DETAILS | HOSTING SERVICE DESCRIPTION |
| --- | --- | --- |
| Estimated Azure Usage | Network configuration | Licensing Considerations |
| Estimated Installation Services | Storage, Backup and Security Configuration | |

If the customer requires an installation script or Azure template, these can be produced for an additional fee.

## SCOPE OF WORK
