

Redefining Employee Well-Being with VivaScore

Transforming the landscape of workplace wellness, VivaScore is engineered for organisations aiming to elevate employee health and productivity. Our solution encourages meaningful behavioural changes by enabling employees to effortlessly monitor vital health metrics such as activity levels, blood pressure, and BMI. This empowerment leads to informed lifestyle choices, fostering a healthier, more engaged workforce and promoting an environment of enhanced productivity and well-being.

participants discovered new information about their health

reported behaviour changes by the end of the pilot.

Comprehensive Health Tracking

Monitors a variety of health factors such as activity and BMI.

Seamless Integration

Aggregates data from diagnostics, wearable devices, and health apps for a holistic health overview.

Personalised Engagement

Offers tailored health insights for individual empowerment.

Advanced Analytics

Utilises AI and machine learning for in-depth health insights.

Benefits

Proactive Health Management

Cost Savings

Mental Health Support

Enhanced Productivity

How it works

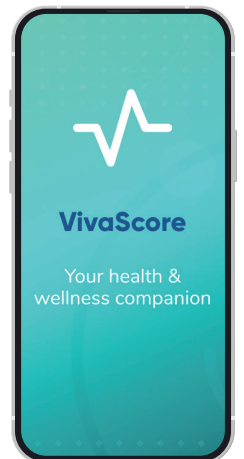

1 Access the app & register

2 Link wearable devices or connect to favourite health apps

3 Complete digital health checks

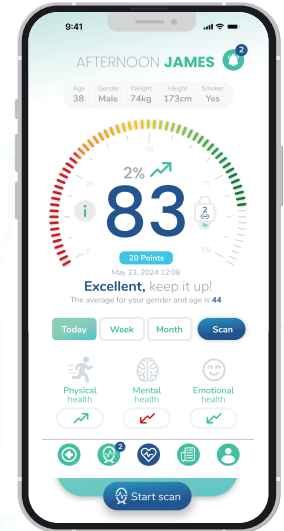

4 Track and monitor personalised VivaScore

5 If relevant, book appointments for diagnostics tests and consultations with healthcare providers

Reporting

- ✓ **Employees** receive a weekly personalised report summarising their health metrics and tracking changes in their overall well-being.
- ✓ **Employers** gain access to real-time reporting dashboards, along with anonymised weekly summaries that highlight key health trends and indicators within the workforce.

Advancing employee wellness through collaboration

VivaScore collaborates with top-tier diagnostics companies, state-of-the-art laboratories, healthcare providers, and telemedicine services, enhancing our ecosystem and extending top-quality services to our clients.

Flexible Solutions for Optimal Integration

VivaScore is designed to accommodate the unique needs of your organisation, offering a range of flexible solutions to ensure optimal integration:

- ✓ **White Label Solutions:** Customise VivaScore to align with your corporate identity, allowing for a seamless fit within your existing wellness programs.
- ✓ **System Integration:** Enhance your company's health ecosystem by integrating VivaScore, boosting employee engagement and well-being.
- ✓ **Standard Application:** Utilise the VivaScore app as is, leveraging its comprehensive features and user-friendly interface for immediate wellness support.
