

Microsoft Fabric Configurations and Infrastructure Enablement

4-6 Weeks

Offer Description

Fabric Configurations and Infrastructure enables teams to adopt Fabric with confidence while minimizing future rework related to access control, workspace structure, and data management.

Deliverables:

- ✓ Fabric workspace and environment setup (up to 3 environments: Dev, Test, Prod)
- ✓ OneLake, Lakehouse, and Warehouse baseline configuration
- ✓ Role-based access and security setup
- ✓ Governance and workspace standards document (covering Microsoft Entra ID, Private endpoints and SQL endpoints)
- ✓ Admin and operations guide
- ✓ Knowledge transfer session
