

Active Directory → Entra ID. 5-Day Readiness Assessment.

A fixed-fee, 5-day assessment that tells you what the migration costs, what it breaks, and what stays.

What you get

- **Day 1: Forest and domain discovery.** Forests, domains, sites, domain controllers, FSMO roles, schema, replication health, GPO posture.
- **Day 2: Identity inventory.** Users, groups, service accounts, computer objects, password policies, Kerberos and NTLM dependencies.
- **Day 3: Application dependency analysis.** Apps bound to AD via LDAP, Kerberos, NTLM, RADIUS, or SAML federation. Each mapped to its Entra ID equivalent.
- **Day 4: Hybrid posture audit.** Entra Connect Sync, AAD Connect Health, hybrid Exchange, password hash sync, federation, conditional access.
- **Day 5: Roadmap delivery.** Phased migration plan, risk register, cost estimate, and a Private Offer for the follow-on migration engagement.

Why Simplicity IT

- **Microsoft Solutions Partner** with active Security designation work.
- **Identity-specialist delivery practice.** Active Directory, Entra ID, Entra Connect, Defender for Identity, Entra ID Protection.
- **Fixed fee.** Scope and price agreed before kickoff. No hourly billing surprises.
- **Real roadmap, not a sales pitch.** The deliverable is a migration plan your security architect can defend in front of the audit team.
- **Microsoft-native engineering.** No third-party identity bridges, no abandoned-Okta-migration scars.
- **Open-source toolkit + AI-augmented delivery.** Our publicly maintained AD readiness toolkit (MIT, github.com/SIMPLICITY-IT-INC/simplicity-ad-readiness-toolkit) wraps Microsoft IdFix, AzureADAssessment, AADInternals, and BloodHound into one workflow. AI augmentation compresses the Day 1 baseline document from a full day of manual queries to about 30 minutes of architect review.

Representative pricing

Environment	Fixed fee	Scope
Up to 250 users, single forest, single domain	\$4,995	Standard assessment, 1 stakeholder briefing
250-1,500 users, multi-domain or hybrid identity	\$9,995	Application dependency deep-dive, 2 briefings
1,500+ users, multi-forest, federation, regulated audit	\$19,995+	Custom scoping, on-site delivery option

Representative pricing. Final fee set via Azure Marketplace Private Offer based on forest count, hybrid complexity, and on-site needs.

Prerequisites

Active on-premises Active Directory environment. Microsoft 365 E3, E5, or E7 tenant. Global Administrator access to the M365 tenant and Domain Admin or equivalent read access to AD for the engagement window.

Want to self-assess first?

Run the free **Simplicity AD Readiness Assessment** SaaS offer (same publisher) for a 30-minute automated Sovereignty Score. Customers typically run the SaaS first, then engage this 5-day consulting service for the architect-led remediation plan.

Ready to assess? Contact azmktp1@simplicityitinc.com for a scoping call. We'll confirm fit and lock the engagement window in 30 minutes.
