Your patients want immediate support, not long wait times

You are working over-time to respond to increasing patient need during the Covid-19 crisis

There is a better way to show your patients you care and meet their needs

Leverage a virtual patient support network

The **Sana Network** of remote caregivers can scale your team & increase responsiveness to patients

Telemedicine • **Collaborative Care Management** • **Remote Patient Monitoring** • **24/7 Answering & Triage**

How to launch your Sana Network

1 Go to tamarin.health/covid-19

2 Select "*Get Started*" to enroll in our standard program. Select "*Customize*" to create a tailored program.

3 Send us your patient list with our HIPAA secure upload

The patient list is all we need to begin our patient outreach for you

Sana Network

- 30 day telephonic care management
- Assess gaps in care
- Intervene earlier to prevent unnecessary facility utilization or readmissions
- Tirage patient care needs for office or telemed visits

Customized Sana Network

A fully customizable solution combining any of these:
- Billing opportunities under Medicare
- 30 day telephonic care management
- 24/7 Answering & Triage
