

Experience the transformative power of Microsoft Fabric first-hand with our comprehensive 5-day Proof of Concept

Delve into a world of data-driven insights using Microsoft Fabric.

Does your organisation want to get started with the newly released Microsoft Fabric?
Our 5-Day Proof of Concept (PoC) is the perfect place for you to start.

What is the Simpson Associates Fabric PoC?

Our PoC will provide you with a comprehensive understanding of Microsoft Fabric's features, capabilities, and benefits, along with exploring relevant use cases that can be delivered by this innovative solution – quickly and easily.

Harness the Benefits of the Fabric PoC

With this PoC, you'll gain an understanding of how Microsoft Fabric can transform your data landscape. Our Fabric PoC will allow you too:

- ✓ Quickly implement a reporting-based or AI-based use case.
- ✓ Break down data silos and create a unified view of your data.
- ✓ Drive business value at a rapid pace.
- ✓ Empower your teams to leverage data insights.

Choose from Report-Based or AI-Powered Use Cases

Tailor your PoC to your specific interests and business goals. Select from a range of report-based use cases that provide valuable insights into your organisation's data landscape. Alternatively, explore the potential of AI-powered use cases that utilise machine learning and advanced analytics to automate tasks, predict trends, and enhance decision-making.

Embark on a 5-Day Journey to Unleash Data-Driven Insights

Through this immersive experience, you'll collaborate closely with our expert team to:

Day 1: Uncover Data-Driven Opportunities

- Identify relevant use cases tailored to your specific needs.
- Explore potential architecture options to suit your unique requirements.
- Assess current data strategy, security, and governance practices to ensure data-driven efficiency.

Day 2: Data Modeling or AI/ML Exploration

- Based on the agreed-upon use case from Day 1, delve into data modeling and mapping or model options for AI/Machine Learning applications.

Day 3: Data Preparation for Analysis

- Successfully ingest, transform, and model data to prepare it for analytical use.

Day 4: Transform data into actionable insights

- Build interactive dashboards and reports or Ai/Machine learning model.

Day 5: POC Handover and Next Steps

- Receive a comprehensive handover of the PoC deliverables.

Why Simpson Associates can help customers on their Fabric journey as a Microsoft Partner

Simpson Associates is a Microsoft Partner with over 30 years of data experience. We have the expertise to help organisations get the most out of Microsoft technologies. We have a deep understanding of Microsoft Fabric and how it can be used to help organisations achieve their data goals.
