SixPivot

Changing the world through software

SixPivot is a cloud first innovator, implementer and strategic partner who works with customers who are building software.

We help start-ups, software companies, corporations and governments see what the future could be by building software that creates real change. We work with many leading-edge ISVs to reduce the worlds waste footprint through to those who develop technology that detects cancer types.

We provide unique services from ideation, technical expertise, product development to commercialization and vendor relationships. We use our own Innovation Hub (Jump Spiders) as a working case study with our first product released to market being the award-winning cloud billing platform Cloud Ctrl.

Microsoft

Azure Modern Integration

SixPivot has developed an Azure PaaS integration solution for customers looking to migrate existing on-premises or competing cloud integration platforms to the Azure PaaS stack.

This service offering is aimed at organisations who have challenges with availability, cost, resiliency, security, or speed to market and/or are ready to transform their integration infrastructure and their developer experience based on Microsoft's best practices for continuous integration (CI) and continuous delivery (CD) using CI/CD pipelines and integrated with Microsoft's DevOps toolchain specifically Azure DevOps or Github.

The key milestones for this Integration Service offering include:

- Engagement initiation including identification of a candidate integration project on Azure's PaaS technologies
- Assessment of the integration project & it's dependencies for deployment to the Integration environment
- Design the proposed solution
- Configuration of a CI/CD pipeline for deployment of the Integration platform and the CI/CD pipeline for the end-to-end deployment of the integration code
- Configuration and deployment of the Integration environment platform
- Deployment of Integration codebase via the CI/CD Pipeline
- Engagement wrap-up including validation of the next steps

SixPivot's Azure Modern Integration Services can take you from existing state to a fully deployed Azure Integration Solution.

To get started we offer :

10 Days –   Modern Integration $25,000.00 ex GST
