

Hyntelo AI Gateway

One gateway
Any LLM
Zero PII exposure
Full EU sovereignty

The enterprise AI gateway built for European companies that can't afford to compromise. A sovereign, privacy-first layer between your applications and any LLM, with full audit trail, cost governance, and zero vendor lock-in.

A cluster of approximately 10-12 shiny, metallic spheres, possibly representing data or AI components, arranged in a roughly circular pattern.
