

FREE White Glove Assessment

Uncover potential savings and optimize your cloud infrastructure with confidence

Powered by **AOCTM** cutting-edge data science, our FREE assessment comprehensively analyzes your actual cloud spending data, ensuring precision and personalized insights based on a holistic view of your entire cloud footprint.

Accurate Assessment:

Examines 100% of your actual cloud spending data, not just samples.

Non-intrusive:

No need for access to your servers or storage. Requires only access to cloud provider metadata (for existing cloud footprints).

Comprehensive costs view:

A full assessment of costs and potential savings, considering inter-dependencies and commitments.
