SharePoint Partner

Custom Intranet Designs

At SkyTerra, we don't just obsess over your technology, we obsess over your business. We design user-friendly intranet solutions that help your company reach its goals.

With a seamless SharePoint Microsoft 365 optimization, you will be up and running under a full Microsoft license quickly and at little to no cost. Plus, SkyTerra will become your Microsoft licensing partner, giving you access to outstanding expertise and support when you need it.

- Teams, Power BI, Power apps and automated workflows
- AI used to read documents, populate databases and tables, create files and automatically alert employees
- Full integration into entire M365 stack
- Enhanced governance to meet your regulated needs such as HIPAA, FINRA, CMMC, GDPR, and LAW 25
- Ongoing MS licensing management by a Tier 1 Microsoft Gold Partner
- Fully optimized Microsoft licensing

Are You Maximizing Your Intranet?

Work From Anywhere: Implement a simple data governance across multiple platforms to enable employees to work safely and securely from any location.
Tap AI Power: Use AI to read documents, populate databases and tables, create files and automatically alert employees.
Make Sharing Easy: Engage your team by sharing internal news, employee highlights, upcoming events, social media activity and more.
Integrate: Sync and display data from other systems so information reaches the entire team simultaneously.

Get the Most From Your Intranet

SkyTerra's Proven Process
- Desktop, tablet and mobile friendly
- Drag and drop configurations
- Secure, yet flexible
- Beautiful and accessible

SharePoint Key Features

Search: Search the entire tenant for related sites, links, articles, documents, etc.
Feedback: Create a feedback loop to conduct employee satisfaction surveys, employee preferences or a poll.
Share Knowledge:Create a Knowledge Base, which is customizable with tags on "knowledge" articles.
Data Access: Provide non-company users limited access to folders and files.
Events: Keep track of upcoming events, conferences and holidays with an event module.
Announcements & Alerts: Share company announcements and highlight alerts with text and color.
Org Chart: Help new hires get to know the organization with access to the organization chart.
Forms: Gather feedback using configurable forms.
Recognition: Recognize outstanding work or employee milestones.
Media: Share images and videos with an Instagram-like feed to engage employees.
FAQs: Provide answers to employee frequently asked questions.
Calendar Insights: Create and display shared calendars to quickly see employee availability.
News Stream: Keep the company up-to-date with a scrolling news feed.

What Our Clients Are Saying About Us

- "SkyTerra showed us the best way to implement SharePoint for our organization."
- "They understand our needs and provide options."
- "Once our needs were met, they also showed us other features and capabilities within the tool set."
- "Support is always available."
"SkyTerra IS that partner for us." Nathan T. Karol, President – Cardinal Consulting
