# Azure Strategic Planning & Assessment (Strategy & Plan)

Azure Strategic Planning and Assessment is a structured, insight-driven engagement designed to help organizations take their first confident step toward the cloud. Over the course of several weeks, we combine automated discovery, stakeholder alignment, and strategic analysis to build a clear picture of your current IT landscape and future cloud potential.

## THE THREE CRUCIAL QUESTIONS

How can we gain a clear, **unbiased view** of our **current IT landscape** to make informed **cloud decisions**?

How do we align **cloud transformation** with our business goals, people, and constraints – not just technology?

Where do we have the **greatest potential to modernize** – and how do we prioritize what to move, improve, or retire?

## AZURE STRATEGIC PLANNING & ASSESSMENT: APPROACH & DELIVERABLES

This starter kit delivers tangible outcomes that help you move from uncertainty to clarity. It's not just about data – it's about decisions. Here's what you can expect:

- Stakeholder Insights & Strategic Alignment**  
 A synthesis of business and technical priorities gathered through targeted, AI supported interviews across departments including a CCoE quick check.
- Current state AI based assessment**  
 A clear, data-driven view of your existing IT landscape – including workloads, usage patterns, and potential inefficiencies.
- Cloud Readiness & Modernization Potential**  
 Identification of workloads best suited for migration, modernization, or retirement – prioritized by impact and feasibility.
- High-Level Business Case**  
 A tailored cost-benefit analysis comparing current-state operations with cloud-based scenarios, including TCO and value levers.
- Actionable Roadmap**  
 A pragmatic, step-by-step plan outlining next moves, quick wins, and strategic considerations for your cloud journey

## WHY WE CAN HELP

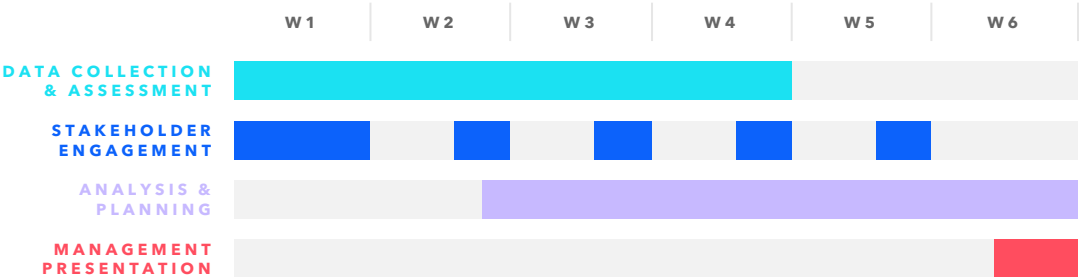

**Powered by AI** to accelerate discovery, analysis, and decision-making through intelligent automation and data-driven insights.

**Strong partnership with Microsoft** to bring early access, co-innovation, and deep alignment to your cloud journey.

**Proven frameworks and best practices** that don't just accelerate delivery – they're designed around your business, your processes, and your goals.

**Centered on people** to ensure your teams are engaged, enabled, and aligned – because transformation only works when people are part of the journey.

## HOW WE GET STARTED

## OUR OFFEERING

- 4-6-Week Engagement
  - 1x Cloud Strategist
  - 1x Azure Solutions Architect
- Microsoft Funding Eligible
