

Purview Unified Data Governance | Quick Start

Enabling a culture of modern data security with unified data governance in Azure

As organizations turn their focus towards innovation...

They face *urgent challenges* of adopting AI at scale

A holistic data governance strategy and approach is needed to unlock the value of data and remove barriers inherent in fragmentation.

SLALOM RESEARCH

87% of executives who have begun AI adoption or transformation initiatives encountered significant roadblocks in key dimensions:⁴

The moment is now...

**Data governance is shifting
from barrier to an enabler
that unlocks business value.**

data governance

**The management of responsibilities and decisions for
processes, policies, standards, roles, & measures
that ensure availability, usability, integrity, and security
of your organization's data so it ready for use**

Our understanding

Manage Risk and Compliance | Operational Efficiencies | AI Readiness and Innovation

Data governance foundations

Establish enterprise data governance with clear roles and responsibilities across the organization.

Risk and compliance

Utilization of Microsoft Purview Information Protection capabilities to identify and classify existing data assets to enable the appropriate security and access controls.

Policy implementation and management

Creation of data policies and standards that are enforceable across the enterprise to increase efficiencies and decrease audit readiness timelines.

Data asset management

Utilization of Microsoft's Data Catalog functionality, data is cataloged and appropriately tagged to enhance cross domain sharing, regulatory compliance, interoperability, and enhance efficiencies.

Microsoft Purview Features

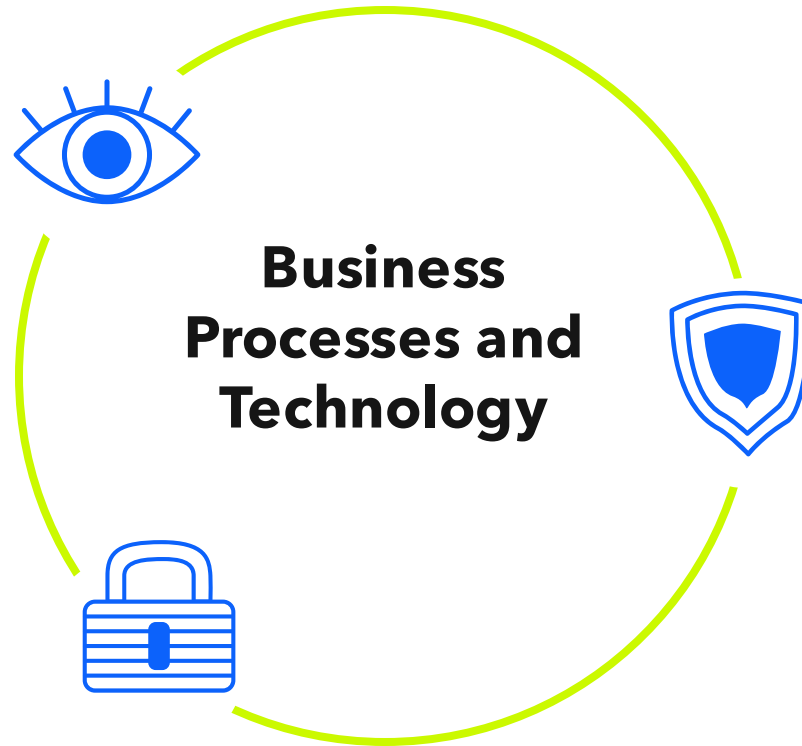

We know Microsoft Purview Implementation

Data Discovery
Data Quality
Data Curation
Data Estate Insights

Data Governance
Create value from data

Data Loss Prevention
Insider Risk Management
Information Protection
Adaptive Protection

Data Security
Secure data wherever it lives

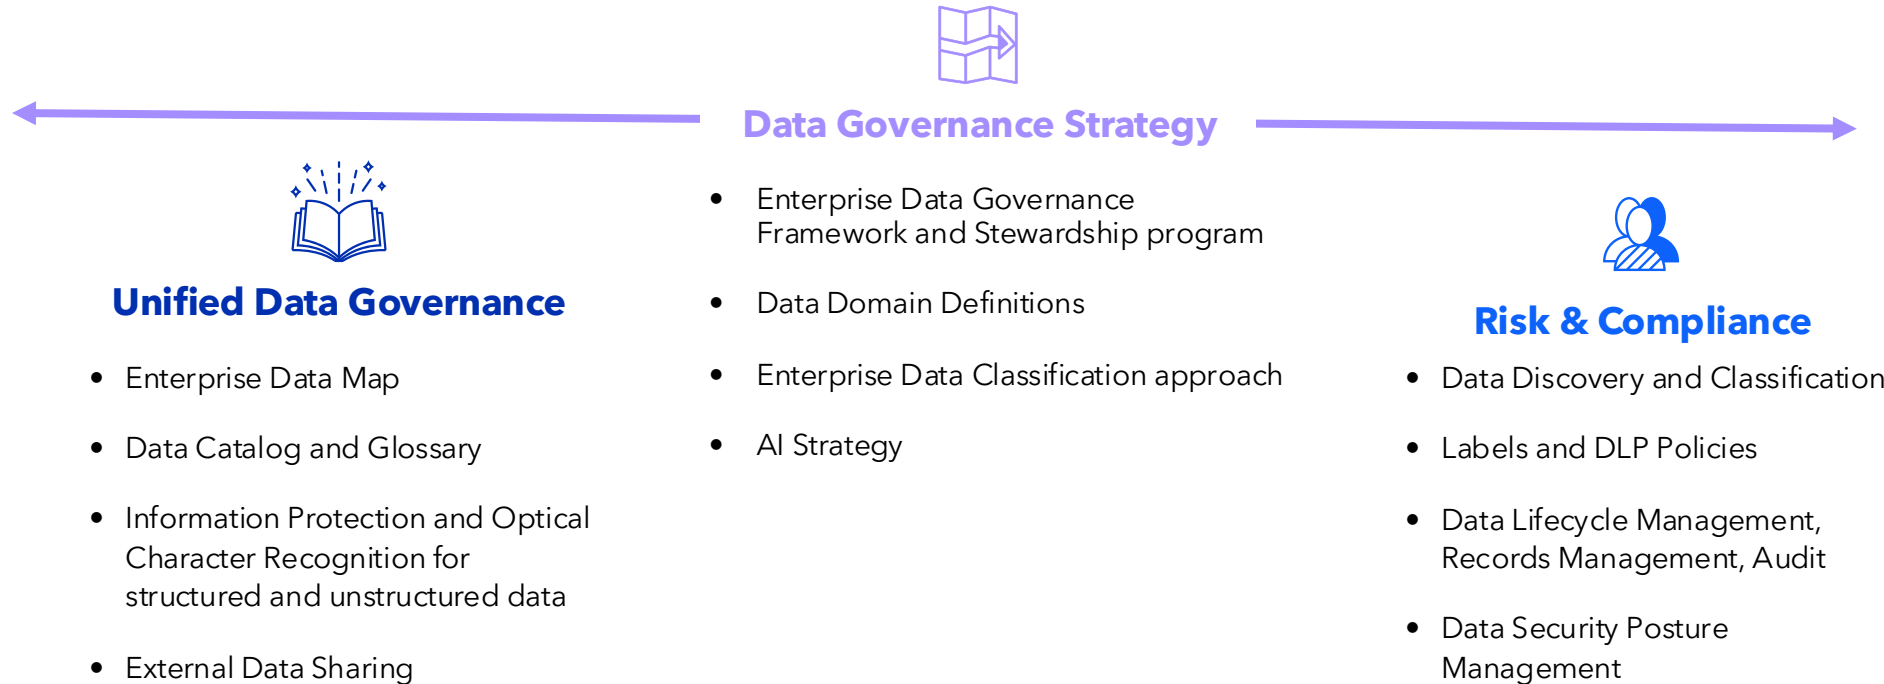

Data Compliance

Manage risks and regulatory requirements

Compliance Manager
eDiscovery and Audit
Communication Compliance
Data Lifecycle Management
Records Management

The "Big Picture"

Leverage Purview to transform methods of working with sensitive data and information

Outcomes:

- A pilot approach and roadmap for modern **Information Protection** with Microsoft Purview
- A supporting business case for future Information Protection adoption outlining opportunities to drive value from the E5 suite
- An enterprise **Data Governance Strategy** to enable the discovery, organization, and protection of data

Purview Unified Data Governance Quick Start

Implementation Milestones for Purview Configuration 6-8 Weeks

PHASE	DEFINE ARCHITECTURE	PROVISION PORTAL	DATA SOURCE PILOT	ENABLEMENT
Week	Phase 1	Phase 2	Phase 3	Phase 4
• Define Network Architecture				
• Define MVP Data Sources for Ingestion				
• Define MVP Data Domains and Collection Hierarchy				
• Define RBAC Approach				
• Deploy Purview Data Governance Portal				
• Configure RBAC, Data Domains, and Collection Hierarchy				
• Register data source(s)				
• Configure scanning access to data sources for Purview				
• Iterate and adjust data source and scanning configurations				
• Define and import Glossary Terms				
• Update Data Catalogue				
• Roadmap for additional features and adoption				

WHY SLALOM?

The Slalom Difference

CUSTOMER LOVE

We take love seriously.

Our focus on our customers, and their customers, is unwavering. We measure customer love in 10 dimensions and use those metrics to guide our business.

GLOBAL / LOCAL

Local soul, global scale.

We're fully invested in the long-term success of our local customers and communities, while also offering the connected strength of a global organization.

OUR APPROACH

Momentum that outlasts us.

We learn what you need, tailor solutions to you, and work with you to drive results. Along the way, we empower your teams to keep momentum going after we leave.

PEOPLE-CENTERED

Head and heart in everything we do.

We show up authentically and get to know you, leading with empathy and kindness. Projects succeed or fail because of people, and we get the people part right.

PARTNERSHIPS

Deep connections, better outcomes.

Our trusted partner relationships are based on thorough understanding of each one's technology—driving exponential impact for our joint customers.

Slalom services

Slalom's services are broad, deep, and infinitely customizable. With a relentless focus on "why," we combine our services to discover, design, and build the most impactful solutions for you.
