About Slalom

WHAT WE DO

Slalom is a **purpose-led, global business and technology consulting company.**

From strategy to implementation, our approach is fiercely human. We deeply understand our customers—and their customers—to deliver practical, end-to-end solutions that drive meaningful impact.

Microsoft & Slalom achieve more together.

Our business was built on Microsoft, and for nearly two decades, we've delivered innovation together. It starts with our shared purpose: realizing greater impact through collaboration and enabling every person and organization on the planet to achieve more.

We're partnering with change-making clients to shape the future around Microsoft technology—that's because as we look to the next two decades and beyond, we know the future will be built on Microsoft, too.

Microsoft Entra

Secure access for a connected world

What is Microsoft Entra?

Microsoft Entra is a new product family name for Microsoft's identity and access products.

It is not a replacement or rebranding of **Azure Active Directory (Azure AD)**. Azure AD remains our hero identity solution, and now becomes a part of Microsoft Entra.

We're introducing a new name because we're **expanding in several new categories** and need a name that can convey modern access security across a broad range of products.

Microsoft Entra

Secure access for a connected world.

Azure Active Directory

Protect your users, apps, workloads, and devices.

Permissions Management

One unified model to manage permissions of any identity across any cloud.

Verified ID

Enable more secure interactions while respecting privacy with an industry-leading global platform.

Azure AD Integration Scenarios

Cloud Identity

Azure Active Directory

Azure Active Directory

Independent cloud identities.

Synchronized Identity

Azure Active Directory

Azure AD
Connect sync

Azure AD
Connect
cloud sync

Active Directory

Single identity, enabling a same or single sign-on experience with Password Hash Sync or Pass-through Authentication*.

Federated Identity

Azure Active Directory

Azure AD
Connect sync
(cloud sync)

Federation

Active Directory

Single federated identity, enabling single-sign-on experience and on-premises multi-factor authentication options

Secure adaptive access

Protect access to resources and data with strong authentication and risk-based access policies

User-friendly multifactor authentication (MFA) support

Configurable Conditional Access policies based on context and risk assessment

User and entity behavior analytics (UEBA) to automatically protect against identity compromise

Seamless user experiences

Provides an easy, fast sign in experience to keep your users productive, reduce time managing passwords, and increase end user productivity

Single sign-on (SSO) for any user type and any app

End user self-service portal to discover and launch applications, request access, and manage profile

Convenient, phishing resistant passwordless credentials

Simplified access governance

Control access to apps and data for all users and admins efficiently with automated identity governance, to ensure only authorized users have access

**Automatic users and guests
lifecycle management**

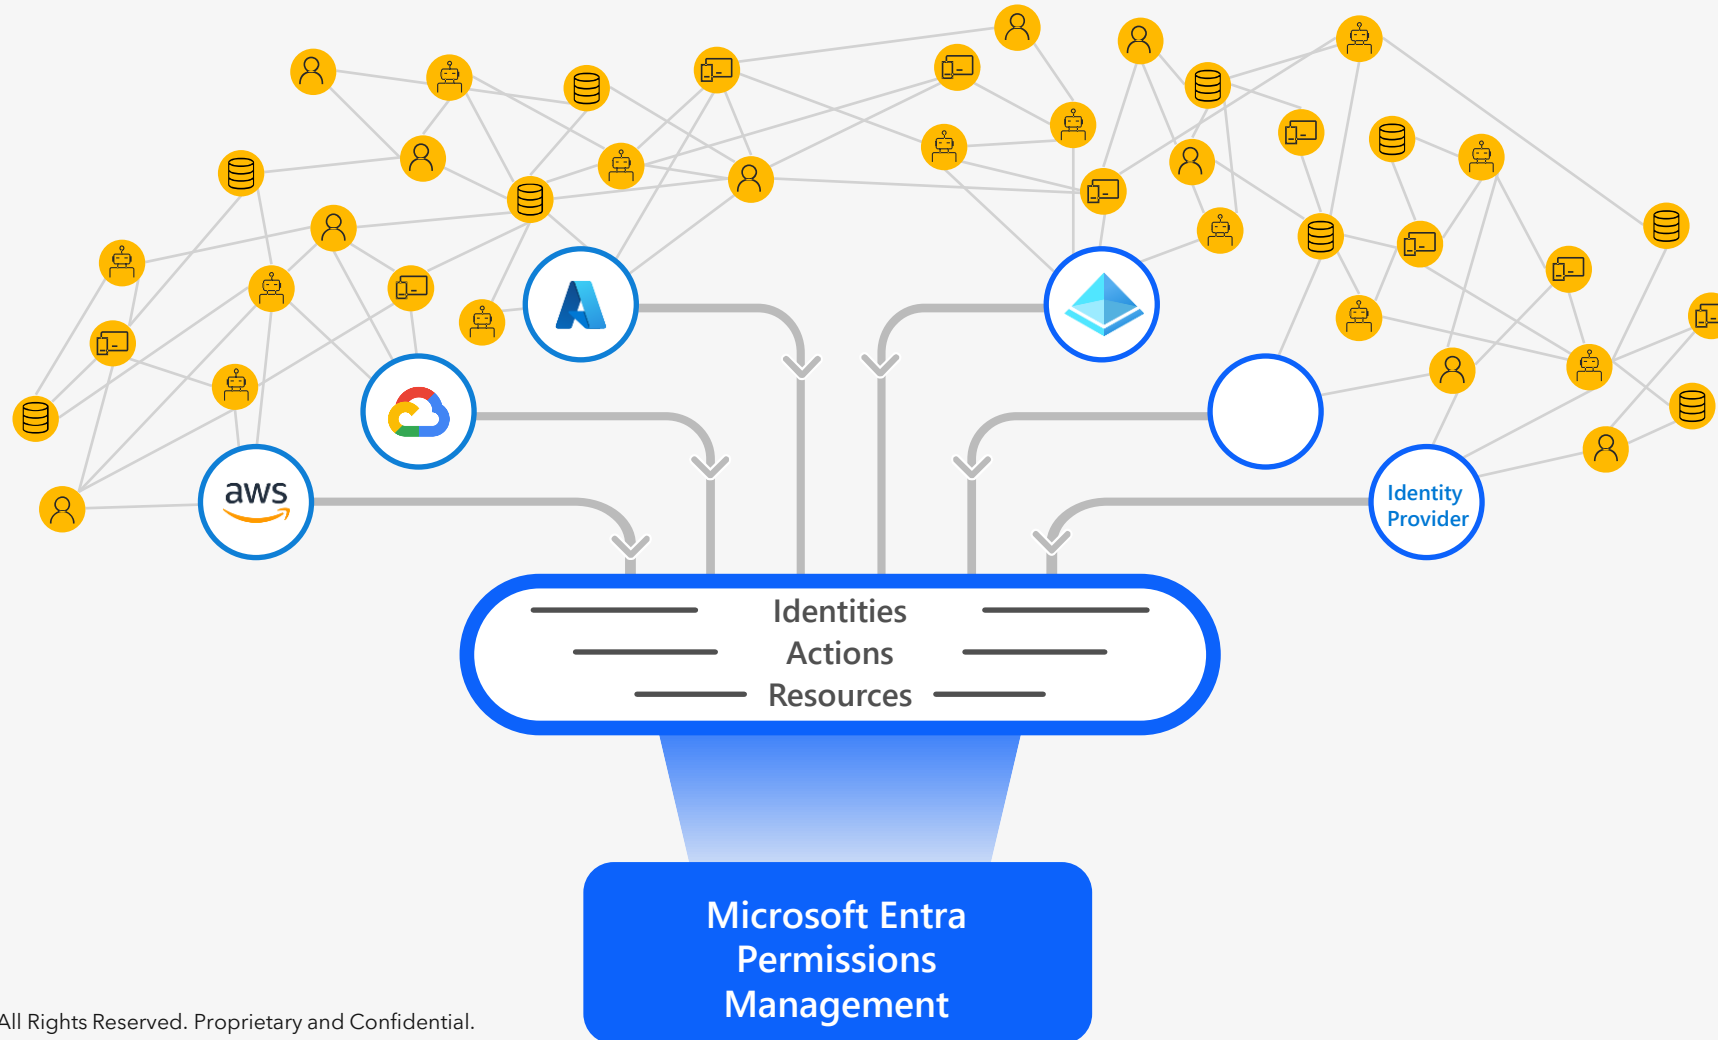

**Grant and review access
entitlements for employees
and guest users**

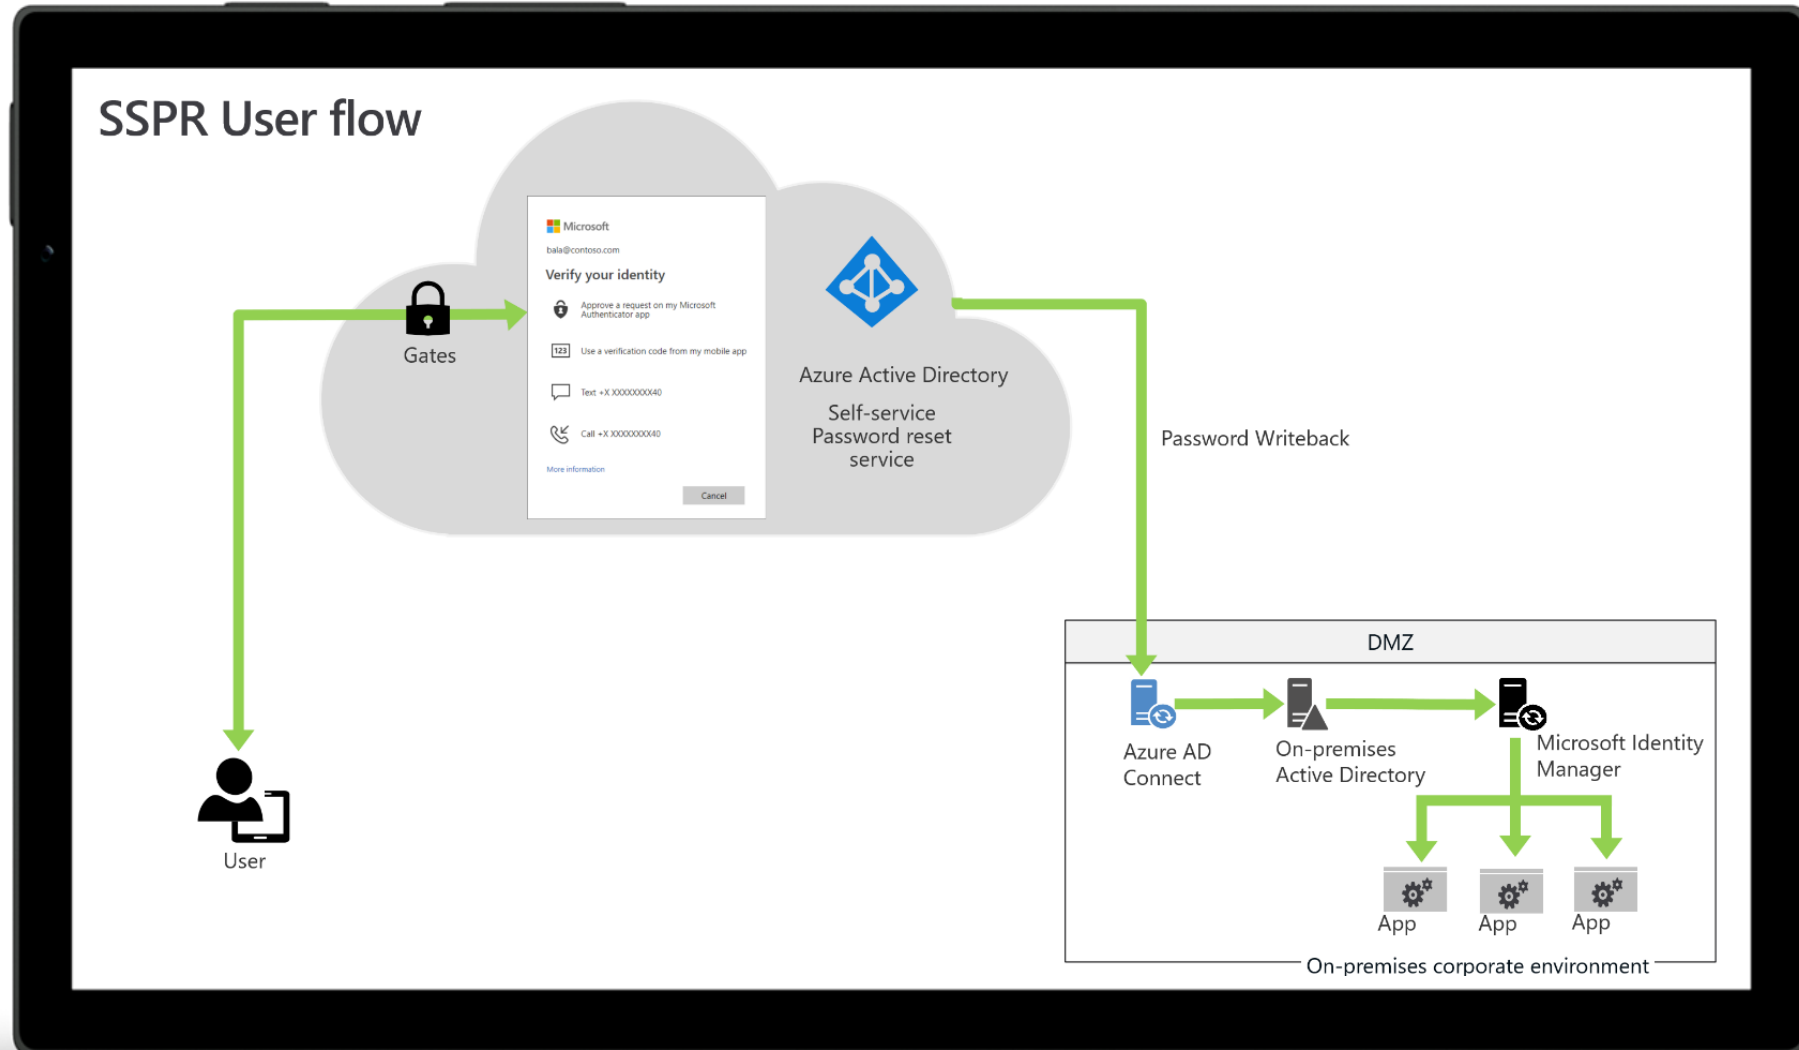

**Privileged identity
management to remove
excessive access**

Microsoft Entra Permissions Management

Manage permissions based on historical usage and activities

SSPR Solution Architecture

Multi-Factor Authentication

Verify user identities with strong authentication to establish trust

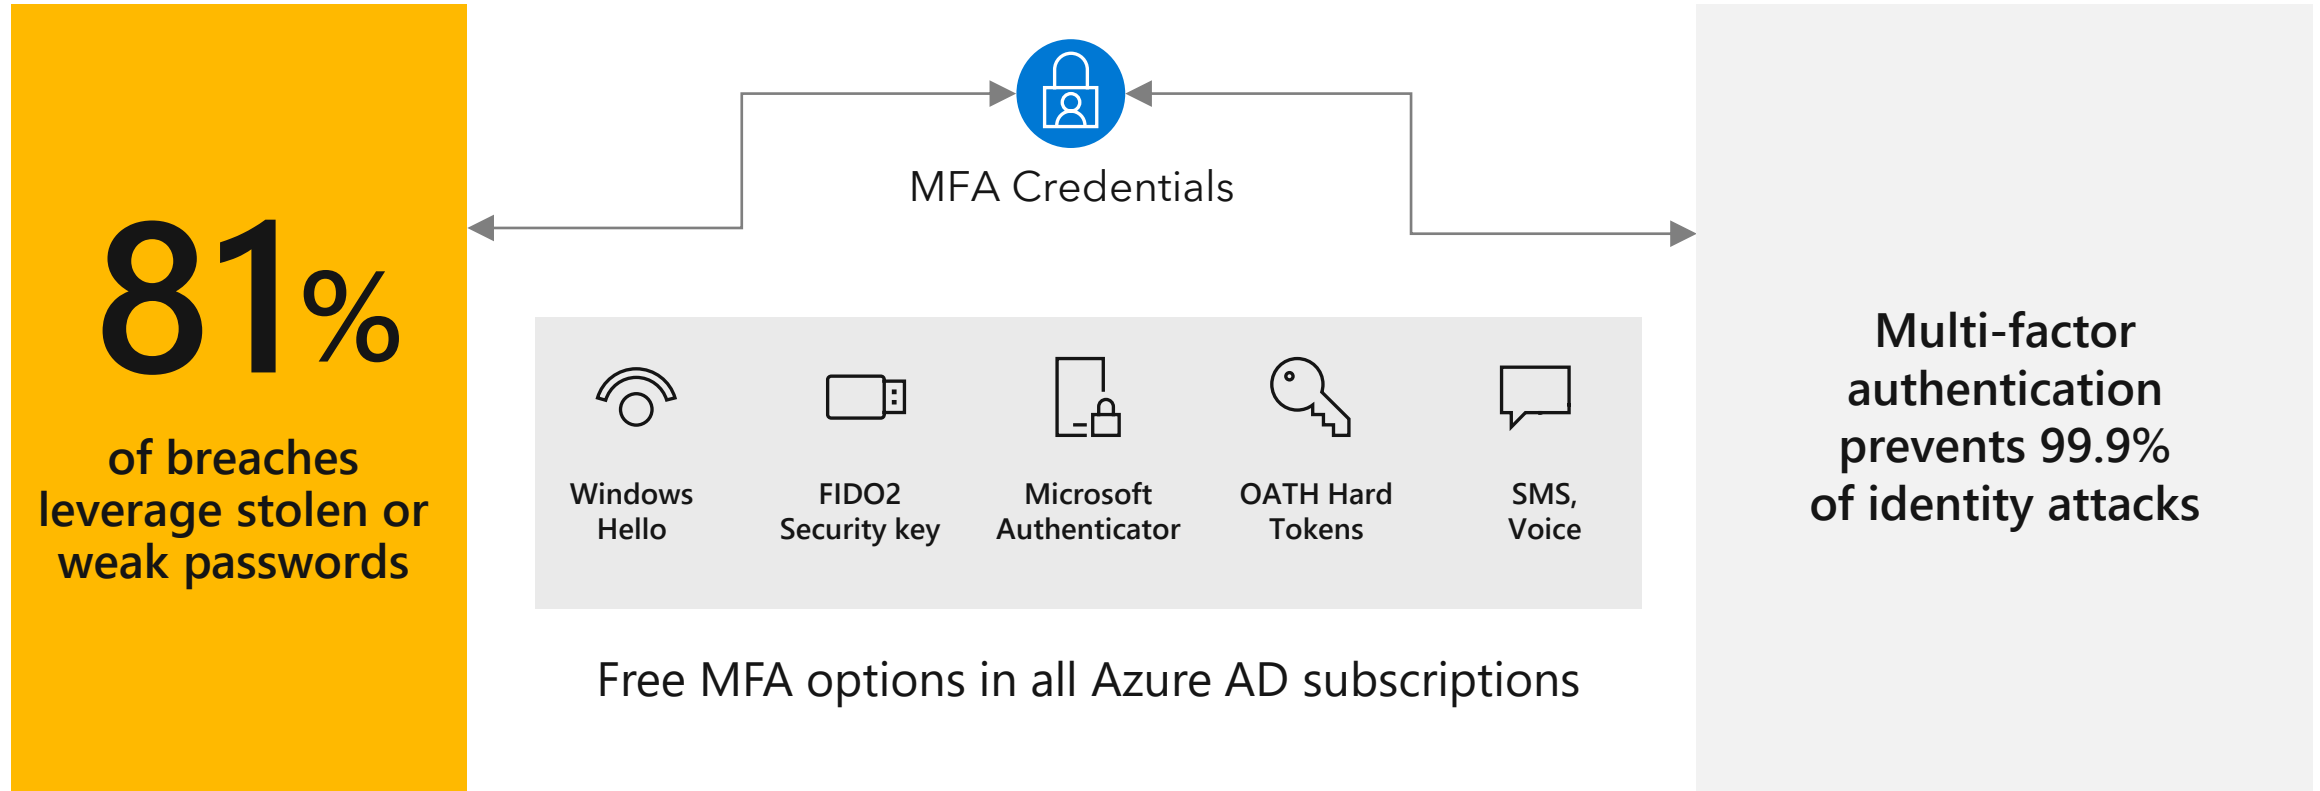

We support a broad range of multi-factor authentication options

 Push Notification	 SMS, Voice	 Soft Tokens OTP	 Hard Tokens OTP
Including passwordless technology			
 Microsoft Authenticator	 Windows Hello	 FIDO2 Security key	 Biometrics

Multi-factor authentication prevents 99.9% of identity attacks

Your password doesn't matter, but MFA does

Verified ID

Enable more secure interactions while respecting privacy with an industry-leading global platform.

Fast remote onboarding

Validate identity information for trustworthy self-service enrollment and reduced time-to-hire.

More secure access

Quickly verify an individual's credentials and status to grant least-privilege access with confidence.

Easy account recovery

Replace support calls and security questions with a streamlined self-service process to verify identities.

Custom business solutions

Easily build solutions for a wide range of use cases with our developer kit, APIs, and documentation.

Our Approach

Technology that empowers your **business**

Security in harmony with your business

People First

We aren't just here to implement technology; we are here to implement technology that works for you.

We work alongside your teams to bring business process and technology together.

Impactful Delivery

Leverage our industry and product expertise to quickly navigate everchanging compliance and regulatory requirements

Enable flexibility with solutions and policies tailored to your unique needs

Long Term Planning

Set you up for a successful future, drive meaningful impact, and limit business disruption.

What's next for *you*?
