

Jumpstart Productivity with Teams

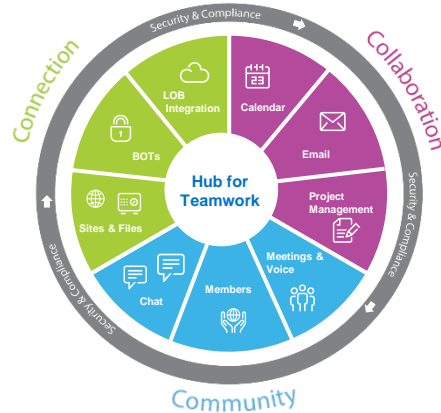

Simplify and accelerate your digital transformation journey

Turn down the noise by leveraging Microsoft Teams as your work hub to enable teams to be closer, work faster - from anywhere, at anytime.

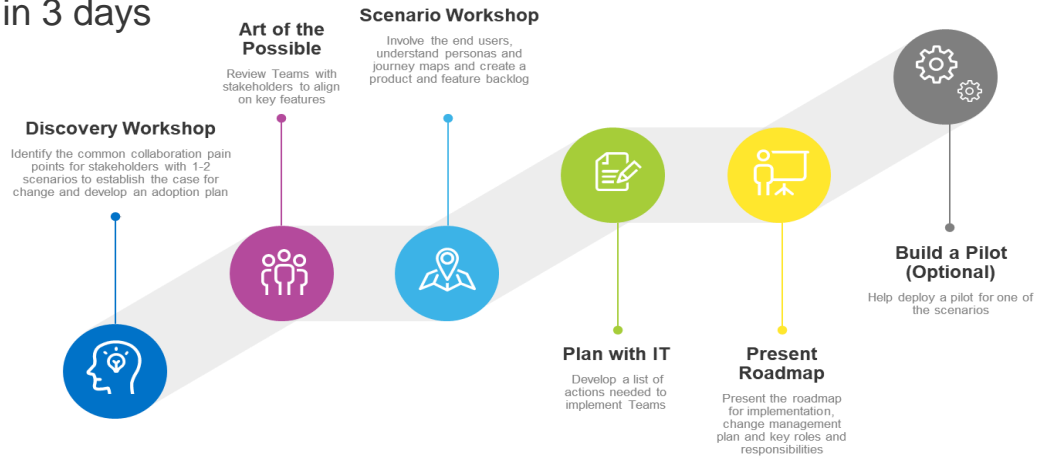

Our user-centric approach for leveraging Teams as a hub

Focus on Collaboration, Connection and Community with Teams as your Hub for Teamwork

Get to a Roadmap in 3 days

Transform your user's productivity with Teams. We take a user centric approach to understand personas, develop journey maps and create an integrated Business and IT roadmap in three days.

Outcome

At the end of your workshop, you'll have the following:

- Understanding of your user personas and how Teams can help improve productivity
- An integrated Business and IT roadmap for implementing Teams
- A change management and adoption plan with RACI
- Measurable criteria for adoption and usage
- A plan for piloting one scenario and persona
