WHO WE ARE

Slalom is a purpose-led, global business and technology consulting company. Our purpose—to help people and organizations dream bigger, move faster, and build better tomorrows for all—guides everything we do.

Benefits

- **AI Powered Insights** Traditional search and insights requires users to understand their keywords and review documents returned by search to determine derive insights. AI Power Insights does this work for you.
- **Secure and Private** This kit leverages OpenAI APIs in customer environments, with no data leakage, and with access control mechanisms baked in.
- **Rapid Prototyping** This kit has a fully functional, modular architecture encompassing API services, User Interface, Prompt Library, and API-based authentication mechanisms, allowing teams to move fast and show value.
- **Customer Scenarios** Slalom's expertise across various industries and sectors have been leveraged to build specific industry scenarios and custom GPT tools to showcase the applicability of OpenAI across markets.

Why Slalom?

- **Slalom is a leading partner in OpenAI implementations** with 1000s of customers across a large cross-section of industries.
- **Slalom works with the leading partners in the Generative AI space.**
