

SMART FastTrack Ready Program

Digital Workplace Creation, Microsoft 365 Training and Adoption

SMART business helps Microsoft clients get the most out of Microsoft 365. Users improve the way they work, increase the overall use of Microsoft 365 and enhance digital skills across the company.

FASTTRACK program

FastTrack is a set of services, training and support for users to quickly and comfortably adapt to Microsoft 365 services.

They are available free of charge to all clients with a subscription to Microsoft 365, Office 365, Azure or Dynamics 365 plans **with more than 150 users**.

FastTrack resources and support are available for the duration of your subscription. This contributes to a more efficient implementation of **cloud services** in your company.
