Microsoft 365 Security in the Cloud

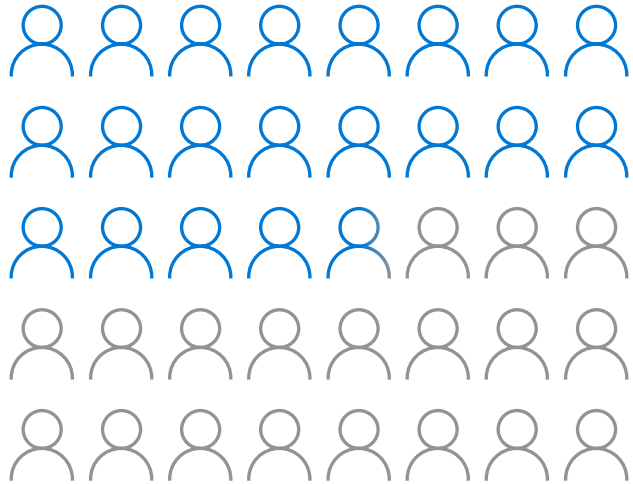

One solution to defend, protect,
and secure your data.

The Microsoft logo, consisting of four colored squares (red, green, blue, yellow) arranged in a 2x2 grid, followed by the word "Microsoft" in a black, sans-serif font.

 Microsoft

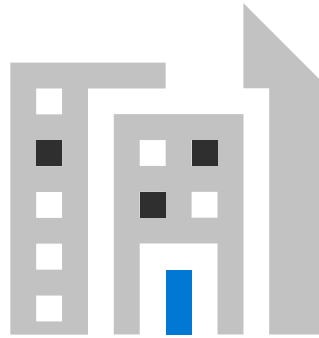

Small businesses are the most vulnerable

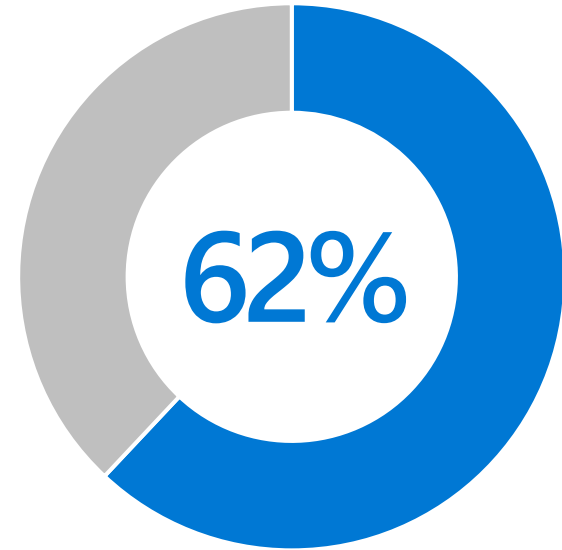

43% of breaches take place at small businesses. ([Verizon](#))

\$120,000

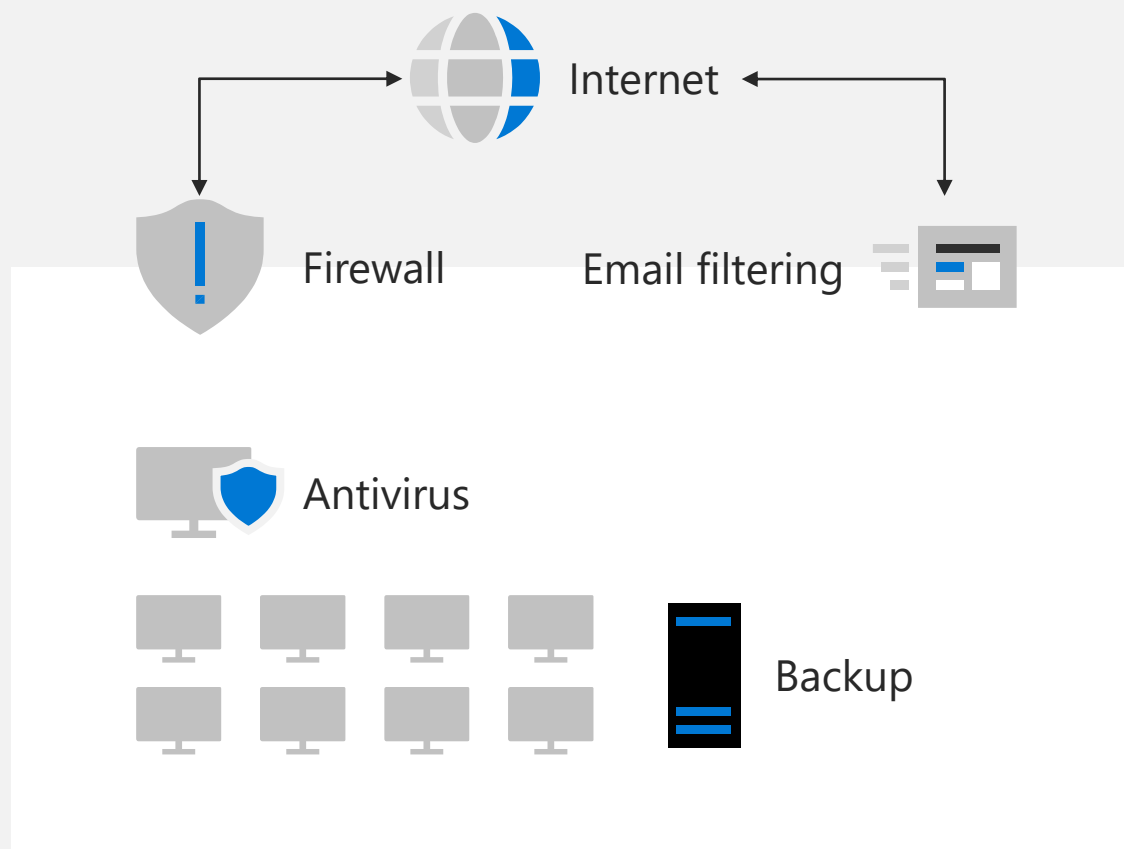

The average cost of a SMB data breach is \$120,000. ([Kapersky Lab](#))

62% lack the skills in-house to deal with security issues. ([Continuum](#))

Today's SMB IT environment is challenging

More mobile devices

Employees working
from more places

Phishing
Ransomware
Social engineering

With data moving to the cloud, increased mobile access, and cybercriminals getting more and more sophisticated, **times have changed.**

Stories from SMB IT managers

"Someone was **fooled by the email from the CEO** and used his corp card to send the iTunes gift cards. We lost about \$5,000."

– Adam A., video game rentals,
150 employees

"We saw that it was moving through the network drives, **encrypting files**, starting with Z: drive and moving down."

– Jerry K., import/export,
250 employees

"The only reason **we caught it** was that it was a 6-digit sales order and our sales orders are 7 digits."

– Joe B., food distribution,
250 employees

"They **got someone's password**, and sent an email to our CFO, who sent the \$40,000 wire transfer."

– Bob K., property management,
150 employees

Work confidently with an advanced security solution

Defend your business against advanced cyberthreats.

Protect sensitive information.

Secure the devices that connect to your data.

You get a suspicious email and you're not sure whether to click on it or not...

Don't sweat.

Gain the confidence you need and defend against threats.

Check links at time of click to combat advanced phishing attempts.

Detect signs of email impersonation with machine learning.

Enable advanced multi-factor authentication.

Enforce features that help protect your Windows 10 devices.

Detect malware with sandbox analysis of email attachments.

A photograph of two women in a hotel lobby. The woman on the left, with dark hair in a ponytail and wearing a red blazer, is looking down at a smartphone. The woman on the right, with blonde hair and wearing a dark blazer, is looking at a laptop. The background shows a well-lit lobby with other guests and ornate decor.

Imagine if you emailed sensitive information to the wrong person...

No problem.

Protect your information every minute of every day.

Encrypt sensitive emails.

Block sharing of sensitive information like credit card or social security numbers.

Prevent individuals from copying and saving business information.

Enable unlimited cloud archiving.

Ever had that sinking feeling when you realize you left your phone somewhere the night before...

Take a deep breath. No worries.

Secure your devices.

Control which devices and users can access business information.

Remotely wipe information on lost or stolen devices.

Apply security policies to protect data on iOS and Android phones.

Keep company data within approved applications.

What is Microsoft 365 Business?

One solution to defend, protect, and secure your data.

Why trust Microsoft 365?

We have the resources and bandwidth.

Case studies

Oculus Group

"Microsoft 365 opens up so many more possibilities for us. We have confidence in its security capabilities, so we don't have to worry about it. We're free to do what we do best."

- David de Closey, Partner, Oculus Group

Rich Interactive

"The advanced threat protection in Microsoft 365 Business means that I don't have to worry, and I'm made aware of issues before they become a problem."

- Anthony Godsell, Customer Account Manager, Rich Interactive

iSalon Software

"We now have all we need in one portal. I can track and control what I need to meet GDPR standards and implement IT policies across the company in minutes."

- Ryan Taylor, IT Manager, iSalon Software

A man with glasses and a blue shirt is sitting at a round white table in a cafe, working on a black Razer laptop. The laptop has a green Razer logo on the back. In the background, another person is sitting at a similar table, and there is a white cup on the table. The scene is dimly lit, suggesting an indoor setting.

Stay secure in the Cloud with Microsoft 365 today.
