Discover Sociabble

**Sociabble helps
companies turn their
employees into an
informed, engaged, and
influential workforce.**

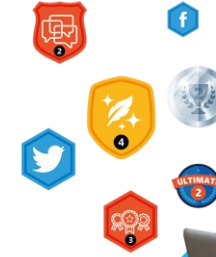

Our mission.

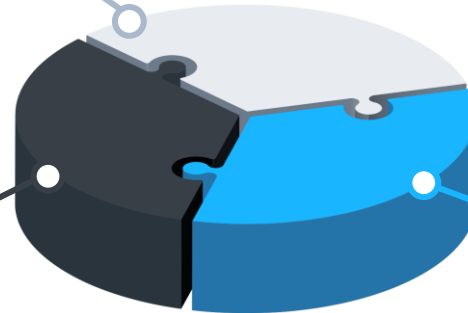

INFORM

Make sure that the important information is effectively seen, whether it is local operational communication provided by local managers, or key corporate information produced by the head office.

ENGAGE & RECOGNIZE

Create the best conditions for employees to give their best at all times, to commit to company values and goals. Give employees a voice and get reliable feedback. Recognize achievements and highlight employees who lead by example.

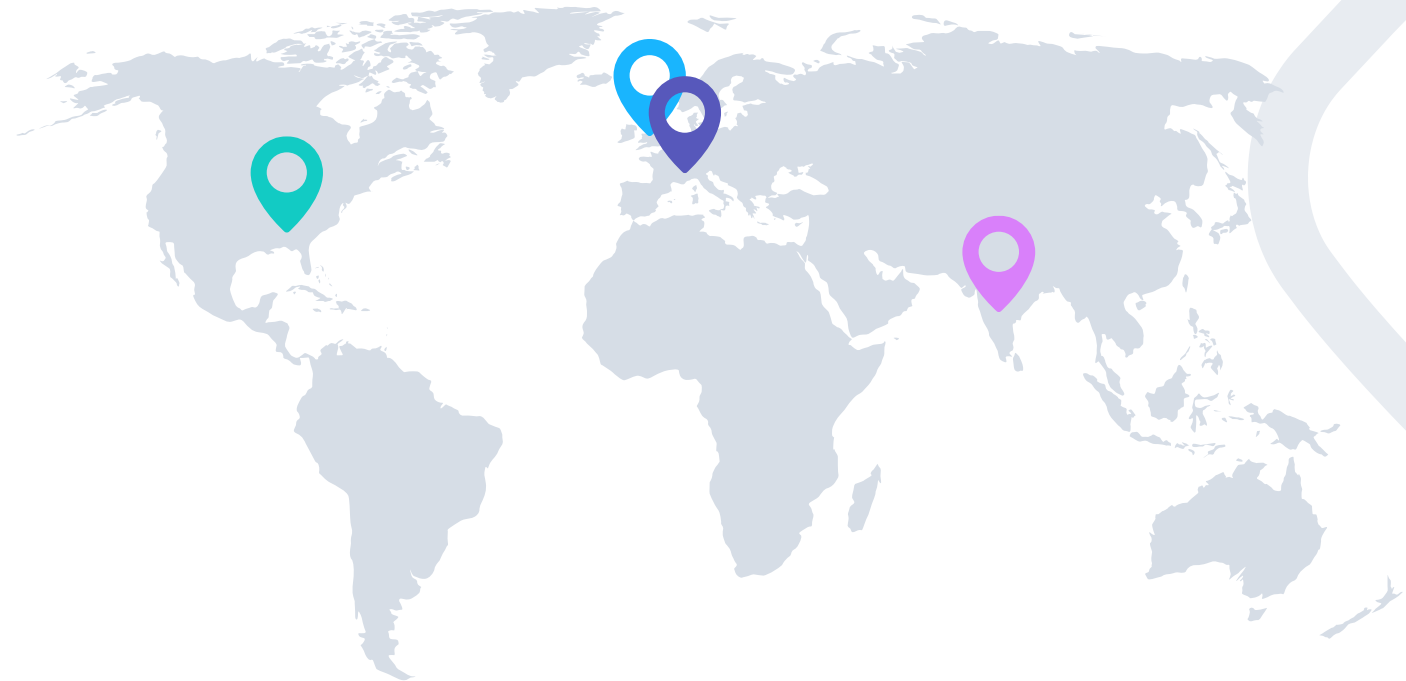

EMPOWER ADVOCATES

Boost brand visibility, drive audience engagement, increase website and store traffic by turning your employees into brand advocates on social networks.

Discover Sociabble

Sociabble is a global company, with offices in Paris, Lyon, New York, London, and Mumbai.

- Global Company deployed in **180 countries**

Sociabble USA

Sociabble UK

Sociabble FRANCE – R&D

Sociabble INDIA

What analysts say about us.

“Entirely hosted on Microsoft Azure, the application offers the option to fully integrate with and launch using Office 365 authentication and may also be embedded into SharePoint . The platform's robust governance capabilities, including its ACPR and GDPR compliance, make it a strong fit especially for distributed global financial services firms with multilingual social network requirements and complex oversight processes”

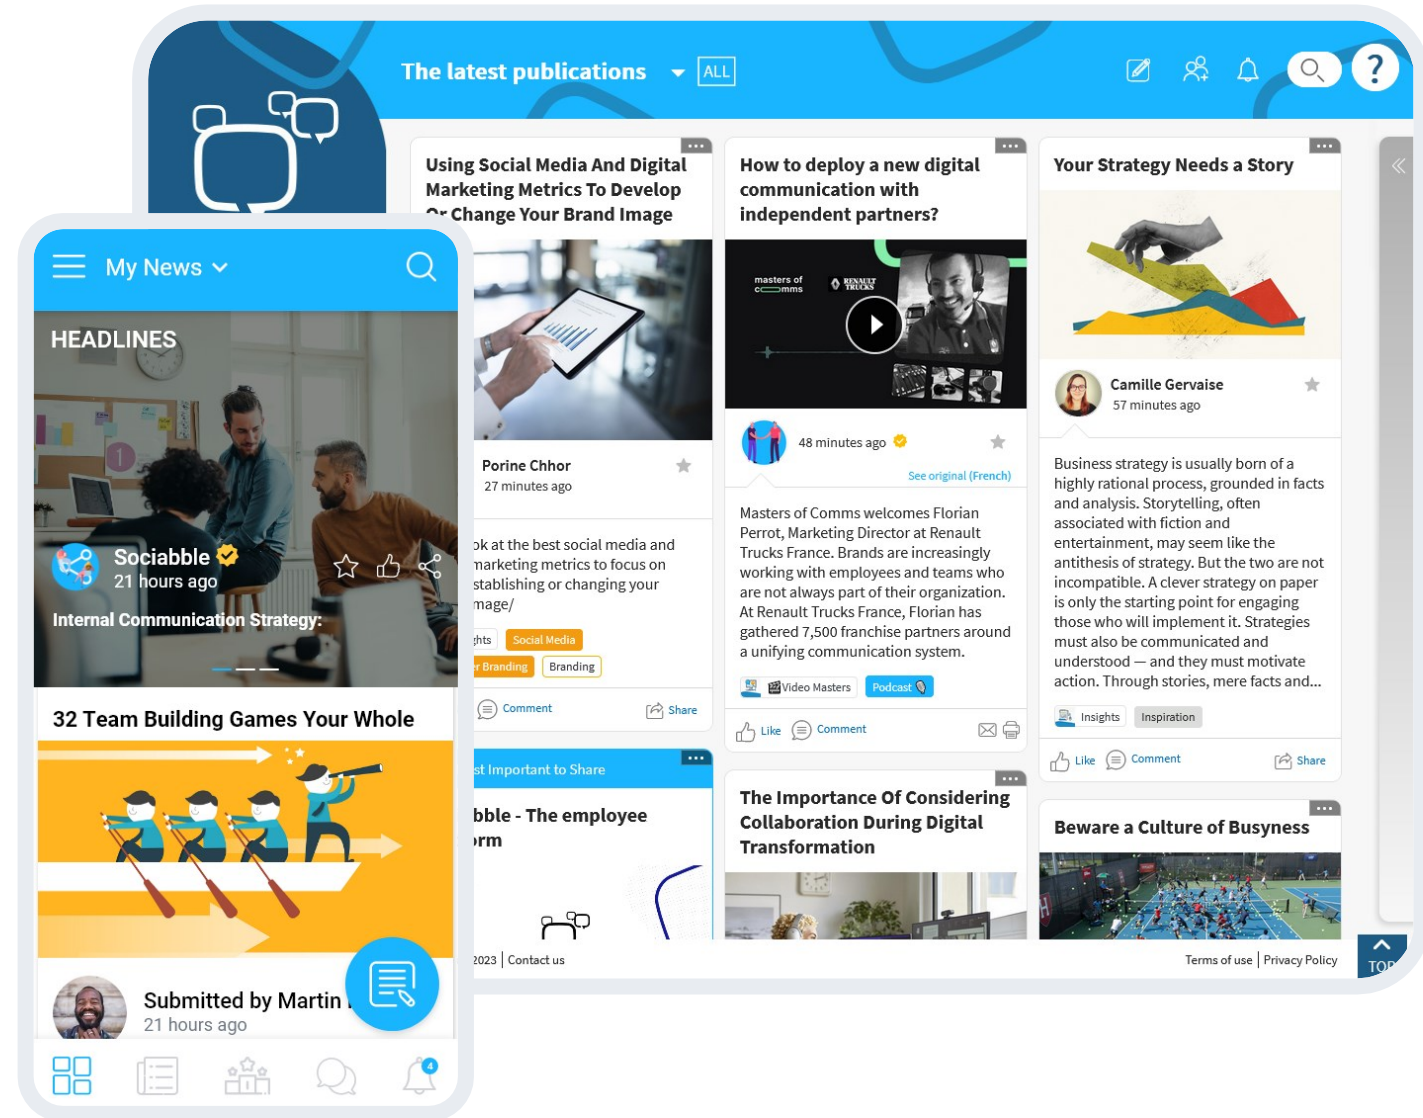

“Sociabble serves customers in more than 80 countries with a mix of locally based and partner-provided customer success managers. Sociabble is a **good choice for multinationals** that want to digitally empower a large and diverse group of users.”

What to Know When Five Generations Share an Office
Louisa Bonham - 3 hours ago
"I think it's a generational thing."
I cannot tell you how many times I've heard that phrase throughout my career (and sometimes used it myself) to explain away confusion, miscommunication, contrasting points of view, or different styles of working. It's been happening a lot more lately, though, and with good reason: For the first time in history, five

The Creator of ChatGPT Thinks AI Should Be Regulated
