What is SOCO?

We are a small and young team from India passionate about the future. SOCO is a fresh new approach to how we attract opportunities for ourselves through our proof of work and collaboration. Our mission is to help individuals land opportunities with their proof of work. Proof of work is changing the way we build our personal brand, collaborate with others, or land opportunities in our careers and life. We make it super easy.

Why SOCO?

We provide a student-driven platform where students and competitive professionals can upload academic and career-related work and convert it into a portfolio and allows students to include a wide range of media, such as Articles, Assignments, Blogs, Skill videos, and Projects, which can help them demonstrate a broader range of skills and capabilities. This is useful for students who may not have a lot of professional experience yet, but have strong skills and capabilities.

about us

Mission

Make at least 10 million students meet their career goals through us by 2024 and help them to discover new and better career paths.

Vision

Diluting the boundaries of education between the youth and providing them a one spot for all to scale up their career

Vibe

Here we work hard with students to make them more efficient while sharing proof of work and making them stand apart from the crowd.
