# AZURE VIRTUAL DESKTOP ACCELERATOR

**Softcat**

Helping you make the most of your cloud environment, allowing your teams to work productively from anywhere.

## HOW DOES THE SERVICE WORK?

Our Azure Virtual Desktop (AVD) Adoption Accelerator Service helps you make the most of your cloud environment. We build and configure the Azure environment and handle all the technical preparation, aligning with your business requirements. A pilot deployment ensures the solution hits the right mark before launching, allowing your workforce to work smoothly from wherever they choose.

We provide full documentation, a handover session, a best practice framework and FAQs, and hold the Azure Virtual Desktop Advanced Specialisation, demonstrating our expertise and capability to deliver an effective solution. On hand every step of the way, our experts offer advice and guidance to prepare you to take on future deployments with ease.

Our experience, expertise and long-standing relationships with partners mean you can confidently embrace new technologies to stay ahead of the curve. To handle the day-to-day management tasks of AVD, we configure Nerdio Manager for Enterprise, which allows you to leverage the significant investments Microsoft is making into the Azure Virtual Desktop and Windows 365 services. Unlike other virtual desktop solutions, it does not replace Microsoft's native components but enhances them with best-in-class enterprise capabilities and extends its native admin experience.

## BENEFITS TO YOU

### People

Working from home or on the go shouldn't have to be a compromise. AVD ensures teams have consistent access to all the same apps, data and tools without a hitch so they can hit the ground running and work productively from anywhere.

### Technology

Our experts cut through the complexity of cloud, putting you and your business needs first to ensure the solution is tailored to transform your organisation. We deliver a secure cloud solution and offer guidance for future developments and deployments.

### Commercials

Our AVD service accelerates your set-up, ensuring minimal time spent setting up and avoiding the risks associated with deploying a new solution. The pricing model of AVD allows you to flex up and down to meet the changing demands of your business.

# SUITABLE FOR YOU IF...

✓ You are looking to move to Azure.

✓ You want to make the most of your cloud environment.

✓ You're looking to support users to work from a range of locations.

✓ You need a consistent, reliable platform to enable your users to work remotely.

✓ You're considering AVD and would like some expert help to ensure its success.

# WORKS WELL WITH

## Public Cloud Automated Adoption Accelerator - Azure AAA

Simplifying your cloud journey with a standardised, automated deployment of Azure with transparent costs.

## Public Cloud Security and Health Assessment - Azure

Ensuring your Azure environment is secure and running efficiently by identifying potential security risks and cost savings.

## Public Cloud Migration Assessment - Azure

Showing the best way to a successful cloud migration for an optimised cloud environment.

# WHAT'S INCLUDED

**Hands-on coaching** – Helping to adopt AVD quickly and ensuring everyone has consistent training.

**Stay safe** – AVD gets you a secure, effective cloud solution for all your users, wherever they are working.

**Tailormade solutions** – We work with you to understand your business objectives before building a solution to meet your needs.

**Pilot testing** – Ensuring the solution will work across the organisation, we offer a pilot deployment to iron out any creases and make any improvements.

**Future proof** – We don't leave you at deployment – we offer guidance for future developments and deployments to make the most of your cloud environment.
