

### Automation BOTs & Apps

SOFTEL offers services and solutions for automated modernization of unified communications for the large enterprise in partnership with Microsoft

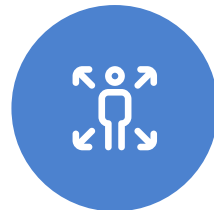

### Managed Security

Using **Sentinel** and **Defender**, we excel at Incident handling, Disaster recovery and protection planning, Business technology mapping and **24x7X365 SOC (XDR + SIEM)**.

### Modernization of the workplace

We enhance the productivity of a business with automations, AI integrations, professional services and business processes

## WHAT WE DO BEST

SOFTEL is a Microsoft Managed Partner for development. Our core expertise stands in Unified Communications (UC), Microsoft Security, and Automation – **At Scale**.

[LEARN](#)
