# Our Cloud Journey Started Pack permits you to easily integrate cloud services into your IT infrastructure!

ABOUT SOFTJAM S.P.A.:

We are a system integrator whose mission is to lead customers through their digital transformation journey. We help them adopt leading cloud technologies and we create tailor-made solutions that boost their business.

What our customers are saying

"SoftJam helps us in understanding our needs and achieve a successful adoption of a hybrid cloud infrastructure"

CIO, Italian energy company

WHAT WE OFFER

The Cloud Journey Starter Pack, part of the SoftJam's Azure Advisory service, permits you to easily integrate cloud services into your IT infrastructure.

Thanks to a series of interactive workshops, our Azure architects collaborate with your BDMs in defining your cloud journey goals, sharing with you all the experience we learned from the field while applying Microsoft's Cloud Adoption Framework best practices in several scenarios.

Together we agree and define the KPI you must observe to determine the health of your adoption program. Then, we convert your business and technical needs into a comprehensive architectural blueprint that includes all the infrastructural Azure services like virtual network, key vault, monitoring and backup components, and many more. The blueprint is based on our proven expertise in Azure architectures, and it can quickly scale during the time to support additional workloads.

Once the blueprint is ready, our engineers implement it to create your first Azure landing zone and – if necessary – integrate it with your existing data center to achieve an efficient hybrid cloud environment.

Why Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1b+ investment in security R&D and 3,500 cyber security experts, security is foundational for Azure.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
