Secure and manage your Microsoft Teams

ABOUT SOFTJAM:

We are a system integrator whose mission is to lead customers through their digital transformation journey. We help them adopt leading cloud technologies and we create tailor-made solutions that boost their business.

WHAT WE OFFER

The IT Governance is a discipline that aims to manage the IT system of a company, in particular by analyzing and managing everything related to IT risks and the processes that govern their activity.

It defines who is responsible for what, when and how content is saved, the level of permissions that will be implemented and the definition of retention guidelines.

SoftJam has developed a specific knowledge on Microsoft Teams and his Governance, helping customers to secure and manage the platform, following the best practices in terms of Compliance.

We operate through a framework with all the phases needed: assessment, remediation and governance, practice based on the certified experiences we have gained on our customers.

What our customers are saying

“Governance is the day-by-day realization of our strategy. People are too busy to think through the consequences when they use digital tools. They shouldn't have to.”

– aa, HR Manager, Italian Banking Company

Why Microsoft 365?

Save your company money

Microsoft 365 is available as a simply, monthly subscription. Avoid large up-front costs for new software while moving the cost of IT from capital to operating expense. And without on-premises servers to run email, websites, and document storage, you can reduce energy costs and save by no longer purchasing new server hardware.

Scale your business quickly and flexibly

Microsoft 365 grows with you on the Microsoft Azure cloud. Adding a new user is as simple as buying an additional license, which allows access to business-critical technology on up to five PCs/Macs and five mobile devices. Microsoft 365 provides many plans to fit the right capability needs and price points for each user in your organization.

Technical support

Your Microsoft 365 subscription comes with 24/7 support from a global network of experts, with one-hour response for critical, service-impacting events.

Financially backed SLA

Get peace of mind knowing your services are available when you need them with a financially backed, 99.9% uptime service-level agreement.

Simplified IT management

Reduce headaches by reducing your IT infrastructure. Content lives safely in globally distributed data centers with continuous backup and disaster recovery abilities.

Microsoft 365 is a cloud-based subscription service that brings together the best tools for the way people work today. By combining best-in-class apps like Excel and Outlook with powerful cloud services like OneDrive and Microsoft Teams, Microsoft 365 lets anyone create and share anywhere on any device.

Key use cases

Business-class email

Build anything from lightweight websites to multi-tier cloud services that scale up as your traffic grows.

Cloud storage

Rely on geo-redundant cloud storage for backup, archiving, and disaster recovery.

Meet online

Get actionable insights from your data by taking advantage of a fully compatible, enterprise-ready Hadoop service.

Collaborate, chat privately

Accelerate your mobile app development by using a backend hosted on Microsoft Azure.
