Tune up your Azure SQL deployment

ABOUT SOFTJAM:

We are a system integrator whose mission is to lead customers through their digital transformation journey. We help them adopt leading cloud technologies and we create tailor-made solutions that boost their business.

WHAT WE OFFER

We check your existing Azure SQL deployment, whether it's based on virtual machines or a Platform-as-a-Service service, and we give you architectural, performance, and security insights.

We verify that your environment adheres to the latest Azure best practices and is suitable to satisfy your needs.

We leave you with a detailed report containing our findings and a remediation plan to fix the issues we may find.

We analyze your Azure SQL deployment and give you some hints about how to improve its performance, security and reliability.

Why Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1b+ investment in security R&D and 3,500 cyber security experts, security is foundational for Azure.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
