Azure Virtual Desktop

The best virtual desktop experience, delivered on Azure

OVERVIEW

Microsoft's Azure Virtual Desktop is a comprehensive desktop and app virtualization service running in the cloud. It's the only virtual desktop infrastructure (VDI) that delivers simplified management, multi-session Windows 10, optimizations for Office 365 ProPlus, and support for Remote Desktop Services (RDS) environments. Deploy and scale your Windows desktops and apps on Azure in minutes, and get built-in security and compliance features.

WHAT'S INCLUDED

Softlanding has three approaches to get started with your Windows Virtual Desktop journey:

› AVD PROOF OF CONCEPT (POC) - UP TO 25 USERS

Establish an initial AVD footprint to tackle the needs of the moment. Microsoft funding can be applied for this engagement.

› PRODUCTION DEPLOYMENT

A Microsoft-funded deployment to establish customized images, harden security, and more. Microsoft funding is contingent on a commitment to deploy at least 25 monthly active users.

› FULL SUPPORT

In addition to the production deployment, Softlanding can provide training and post-implement support through our service desk to lighten the load on your IT team.

About Softlanding

Founded in 2000, Softlanding is a leading provider of cloud, professional and managed IT services. We are a multi-award-winning Microsoft Gold Partner with 14 Microsoft Gold Competencies and we use our experience and expertise to solve our client's business challenges while creating a solid foundation for growth strategies, flexibility and scalability.

KEY BENEFITS

Give your organization a fully managed desktop virtualization system that enables a central management security solution.

SIMPLIFY IT INFRASTRUCTURE

Reduce the complexity of IT infrastructure by managing cloud operations from a single set of tools to reduce maintenance and improve reliability.

PRODUCTIVE DESKTOP VISUALIZATION

Provide your users with the only multi-session Windows 10 desktop virtualized in the cloud that's highly scalable, always up to date, and available on any device.

BUILT IN SECURITY AND COMPLIANCE

Take advantage of multi-layered security provided by Microsoft across physical datacenters, infrastructure, and operations in Azure.

DEPLOY AND SCALE IN MINUTES

Quickly virtualize and deploy modern and legacy desktop apps to the cloud in minutes with unified management in the Azure portal.
