

# Azure Application Modernization Fast Start

Modernize your workforce with a proven two-week engagement set to transition your applications to Microsoft Azure

## OVERVIEW

### Streamline Your Move to the Cloud

Many organizations today rely on custom applications to enhance productivity, engage customers and support business processes. These applications are sometimes created using outdated technologies that are complex and expensive to support. By modernizing these applications it enables businesses to enhance usability while benefiting from modern technologies.

## WHAT'S INCLUDED

Softlanding's Azure App Modernization FastStart a two-week engagement that will cover the benefits of Azure and highlight the Azure services that will light up your applications.

- > **OVERVIEW OF AZURE IAAS AND PAAS SERVICES**
- > **REVIEW OF YOUR EXISTING APPLICATIONS**
- > **ROADMAP FOR THE MODERNIZATION OF YOUR APPLICATIONS**
- > **FOR ONE OF YOUR APPLICATIONS:**
  - Detailed mapping of application features and functionality to Azure workloads
  - Assistance and guidance with the provisioning of required Azure services
  - Working with your developers to update the application to leverage Azure services
  - Deployment and validation assistance of the updated application
  - Review of the available monitoring capabilities to help ensure application performance and health

## About Softlanding

Founded in 2000, Softlanding is a leading provider of cloud, professional and managed IT services. We are a multi-award-winning Microsoft Gold Partner with 10 Microsoft Gold Competencies and we use our experience and expertise to solve our client's business challenges while creating a solid foundation for growth strategies, flexibility and scalability.

## KEY BENEFITS

### DIGITAL TRANSFORMATION

Enhance applications to take advantage of modern technologies to change the way you do business and gain competitive advantages.

### COST REDUCTION

Reduce your operation and maintenance costs by eliminating unsupported technologies and infrastructure.

### BUSINESS AGILITY

React quickly to changing business and user needs by utilizing modern development and deployment technologies.

### GREATER INTEGRATION

Enhance functionality by integration with other enterprise systems and solutions including SaaS (Software as a Service) offerings.

### REDUCED FINANCIAL RISK

With no upfront investment in hardware and no annual commitment, Azure proposes a lower financial risk that everyone can stomach.
