Executive Briefing

IMPLEMENTATION

IMPLEMENTATION
License enablement
Use case training
Drop-in coaching and support
Up to 5 applications deployed using Private Access

PROJECT MANAGEMENT

PROJECT MANAGEMENT
Scheduling
Manage plan
Manage escalation
Coordination

BENEFITS

Global Secure Access includes Microsoft Entra Internet Access and Microsoft Entra Private Access, together safeguarding internet and SaaS applications as well as private network resources. This comprehensive solution streamlines access policy management and orchestrates seamless access for employees, business partners, and digital workloads alike.

> **BETTER SECURITY & VISIBILITY**

By implementing an identity-aware, cloud-delivered network perimeter, it ensures secure access to applications and data while providing enhanced visibility into network traffic and user activity, reducing the risk of unauthorized access and potential breaches.

> **IMPROVED USER EXPERIENCE**

Users can access resources seamlessly from any location without the need for traditional VPNs, leading to a more efficient and user-friendly experience.

> **ENHANCED NETWORK COMPLIANCE**

Ensure users remain within the secure network edge when accessing cloud applications, preventing unauthorized bypasses. Strengthen protection against token replay attacks to maintain a secure and compliant network environment.

About Softlanding

Softlanding is a private organization based in Canada that specializes in Microsoft technologies. For over 24 years, we have provided professional and managed services to help our clients achieve their IT goals.

Softlanding is part of MSP Corp, a collective of diverse IT Services providers that combine their skills and expertise to empower organizations to thrive in the ever-changing digital landscape.
