

# Microsoft Teams Phone Pilot

Elevate your business communications with Microsoft Teams Phone.

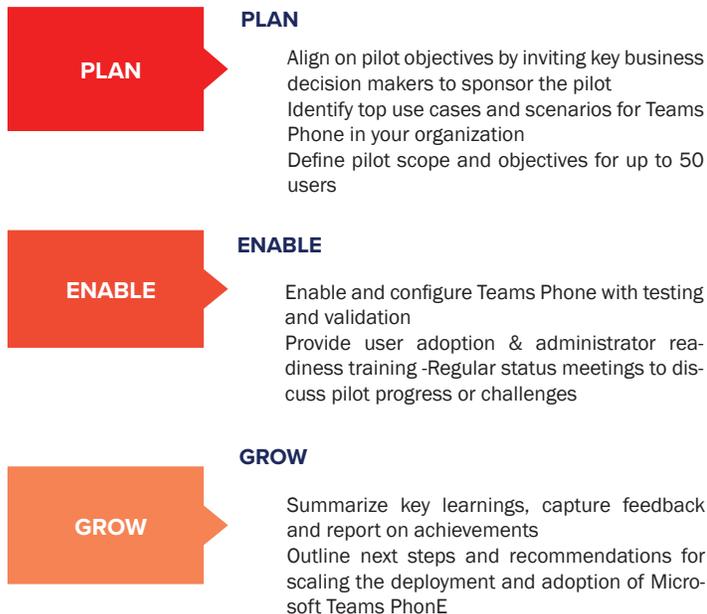

## WHAT'S INCLUDED

This 6-week Microsoft Teams Pilot is designed to help you explore and experience the full potential of Microsoft Teams Phone with up to 50 users in your organization. Throughout this pilot, you will benefit from a comprehensive suite of services aimed at ensuring a seamless and successful deployment.

Our team will conduct a thorough preparation process, verifying that your network, security, clients, and devices are fully optimized for a smooth Teams Phone implementation. We will enable and configure Teams Phone on your production tenant, complete with rigorous testing and validation, ensuring that the deployment is seamless and customized to meet your specific needs.

**This engagement follows a three-phase approach:**

## WHAT TO EXPECT

Softlanding's Teams Phone Pilot demonstrates how to deploy, adopt, manage, and maintain Microsoft Teams Phone. It allows customers to test key calling features and scenarios, including PSTN connectivity, for up to 50 users.

### Here is what you can expect:

- Accelerate value with Microsoft Teams Phone by enabling your top use cases directly in your own environment.
- Receive comprehensive training and support to empower your pilot end users and administrators.
- Identify potential blockers and challenges before a larger-scale rollout.
- Get an actionable plan with defined workstreams, dependencies, and clear next steps for a successful deployment.

## PRICE

> **27,000 CAD\***

\*Microsoft funding is available for eligible clients. Contact us for more information.
