Power BI QuickStart

Drive better business decisions across your organization.

OVERVIEW

Turn Data into Action

Take control of your data and build visually appealing and interactive reports that can be accessed from anywhere. Power BI is a powerful business intelligence tool-set, offering an enterprise-grade data analytics environment that can be seamlessly customized to meet the needs of your organization.

WHAT'S INCLUDED

Leverage Microsoft's Power BI, SQL Server and Microsoft Excel to create stunning interactive reports and consistent analysis across your organization on an easy-to-read dashboard.

› ASSESSMENT

Assessment of current environment and assistance with Power BI registration and Power BI desktop installation.

› INSTALLATION & CONFIGURATION

Installation and configuration of a Data Management Gateway. Requirements gathering and design session for a set of 6 Power BI report pages, up to 2 datasets and up to 2 dashboards.

› KNOWLEDGE TRANSFER & TRAINING

End user training session for power users and IT staff covering how to access and use the reports. Additional support for up to 16 hours after the engagement.

About Softlanding

Founded in 2000, Softlanding is a leading provider of cloud, professional and managed IT services. We are a multi-award-winning Microsoft Gold Partner with 10 Microsoft Gold Competencies and we use our experience and expertise to solve our client's business challenges while creating a solid foundation for growth strategies, flexibility and scalability.

KEY BENEFITS

Help your organization spot risks, find opportunities, and make informed decisions with Power BI.

CREATE DASHBOARDS AND VISUALIZATION

The Power BI dashboard is a simplified web canvas on Power BI online service that allows you to import visuals of your choosing from multiple reports and pin them as tiles to the dashboard.

REAL-TIME ANALYTICS

With Microsoft Power BI, you can gather and stream all your on-premises and cloud information in one central location that you can access whenever and wherever you want.

INDUSTRY LEADING AI

The Power BI platform can help your business prepare data, build machine learning models, and find insights quickly from both structured and unstructured data.

SHARE AND COLLABORATE

Produce intelligent reports that you can publish for your organization to use, share, and collaborate with over the web and across mobile devices.
