# Azure Well-Architected Framework (AWAF) Assessment Offer

## Empowering Your Workloads: 5 Pillars of Technical Excellence!

**Unlock unparalleled technical support tailored to your workloads across five pillars: reliability, cost optimization, performance efficiency, security, and operational excellence.**

**Experience a new level of efficiency and success with our expert guidance!**

### Are you planning to get an AWAF assessment of your environment?

Partner with our esteemed cloud professionals and masters in Azure WAF assessment. They'll:

- **Analyze Architecture:** Understand and assess your Azure workload implementation.

- **Well-Architected Evaluation:** Evaluate performance efficiency, cost optimization, and more against the Well-Architected Framework pillars.

- **Risk Analysis:** Identify potential risks and areas for improvement within your workloads.

- **Tailored Recommendations:** Receive expert recommendations to address gaps, optimize costs, and enhance security and performance.

- **Roadmap for Success:** A roadmap to implement the recommended changes effectively.

NOVENTIQ is a global leader
in Digital Transformation & Cyber Security

*We help organizations get the technical guidance for AWAF covering factors like security, performance efficiency, and cost optimization.*

# Offer Highlights

## Deliverables

- **Engaging Presentation:** A comprehensive session to showcase assessment findings, recommendations, and roadmap to critical stakeholders.

- **Executive Summary:** A high-level overview of assessment results, key findings, and actionable recommendations tailored for management and decision-makers.

- **Targeted Remediation Roadmap:** A prioritized roadmap outlining recommended changes, complete with timelines, dependencies, and potential impact on workloads.

## Pre-requisites:

- **Access Privileges & Credentials:** The client will generously provide essential access privileges and credentials for smooth review and assessment of Azure workloads.
- **Stable & Accessible Workloads:** Azure workloads are stable, ensuring assessment without any impact on production environments.
- **Resource Allocation:** The client will allocate appropriate resources and personnel to facilitate the assessment, actively providing necessary information and collaborating throughout the process.
- **Tools & Licenses:** The client will graciously provide any additional tools or licenses required for conducting the assessment.

What does this package contain? Assessment of up to 10 subscriptions.

What is the implementation duration? 5 days

What is the approximate cost?  $ 1,250
