Discover & Infuse Microsoft Azure AI services

ABOUT Noventiq

Noventiq, a leading global IT powerhouse, empowers and accelerates digital transformation for 75,000+ organizations. Backed by 25+ years of Microsoft expertise and Azure excellence, we connect you with best-in-class cloud solutions, from AWS and Azure to our own managed services. Our 6,200-strong team across 60+ countries unlocks your potential through a comprehensive portfolio.

See what customers are saying:

Our businesses were drowning in operational inefficiencies, struggling to extract insights from data, and making decisions based on gut feeling, not actionable intelligence. Noventiq showed us how Microsoft Azure AI services can automate tasks, provide data-driven insights, and fuel business growth.

WHAT WE OFFER

Noventiq presents a personalized and transformative 8-hour SMB AI workshop, **"Demystifying AI for Small Businesses: Unleash the Power of Microsoft Azure AI services."**

Tailored for SMBs owners and managers, the immersive experience demystifies AI, focusing on Microsoft Azure AI services and real-life use cases application.

Targeting those with minimal AI technical exposure, the workshop addresses operational inefficiencies and decision-making challenges, offering solutions through automation, data-driven insights, and growth strategies.

Bite-sized sessions cover AI basics, diverse applications, efficiency gains, human-machine synergy, and responsible AI practices. Participants craft personalized AI roadmaps, gaining confidence to implement AI responsibly. The workshop blends humor, practicality, and industry focus, empowering SMBs to navigate the AI landscape successfully.

Discover & Infuse Microsoft Azure AI services

SMB AI toolbox - 8 hours workshop

This intensive 8-hour workshop unleashes the power of Microsoft Azure AI services. Participants will craft personalized AI roadmaps and leave equipped to transform their SMB companies from chaotic struggles to smooth-running cashflow machines.

Workshop modules

- **AI Demystified:** Break down the hype and jargon, understanding how AI can be used by everyday businesses.
- **Beyond ChatGPT:** Discover a diverse range of Microsoft Azure AI services and tools beyond writing assistants, showcasing applications for marketing, customer service, finance, and operations.
- **Unleashing Efficiency:** Explore how Microsoft Azure AI services can automate tasks, save time and money, and free up human talent for higher-value work.
- **Human + Machine Synergy:** Learn how to best utilize Microsoft Azure AI services to augment human capabilities, leveraging creativity, emotional intelligence, and strategic thinking.
- **Avoiding Skynet:** Address common concerns about privacy, security, and the ethical implications of AI adoption.
- **Building Your AI Roadmap:** Develop a personalized plan for implementing Microsoft Azure AI services in your business, starting with simple, impactful use cases.
