

GET THE MOST FROM YOUR AZURE CLOUD

SOFTSERVE'S ACCELERATED LANDING ZONE

With SoftServe's Accelerated Landing Zone, our Azure cloud experts help you to:

Get introduced into Azure Landing Zone concept and accelerator

Deploy shared services with Platform Landing Zone via the accelerator

Provision Application Landing Zone via the accelerator for further workload(-s) migration/modernization

Conduct knowledge transfer to your engineering team

HOW THE ACCELERATED LANDING ZONE WORKS

1

Our team gathers your cloud requirements and collects prerequisites for:

- Preparing the Landing Zone deployment plan
- Building shared services
- Provisioning the Application Landing Zone for upcoming workload(-s) migration or modernization

2

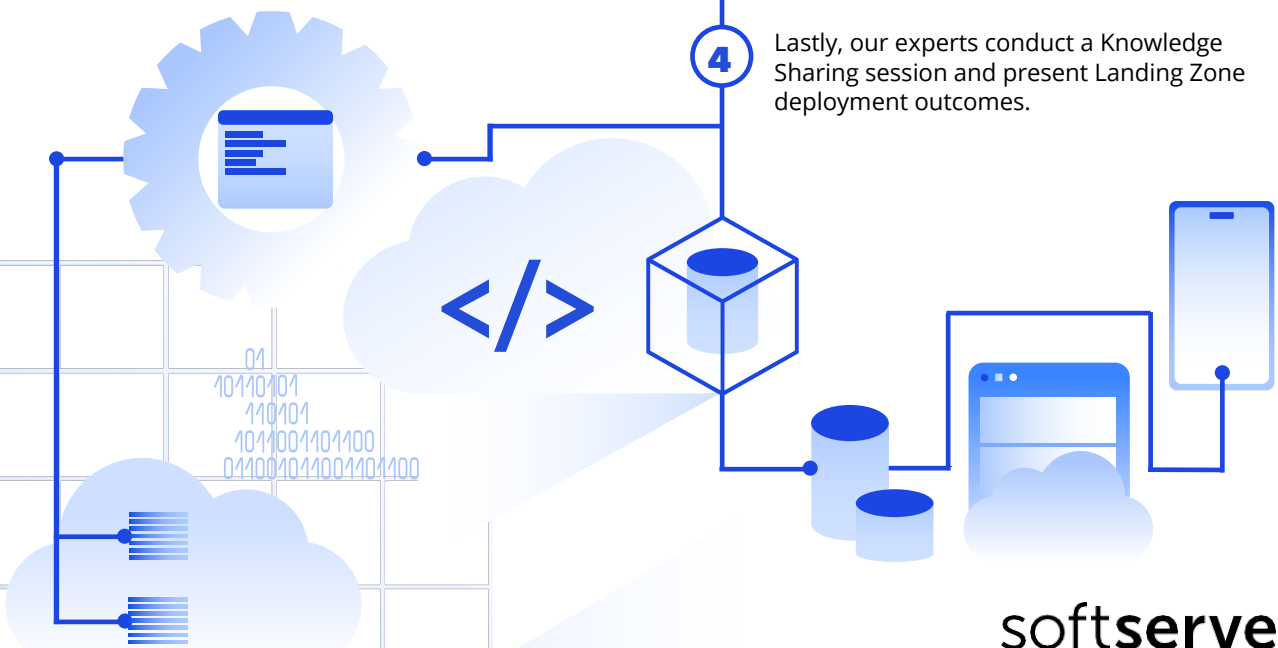

Then, we prepare and deploy the Platform Landing Zone accelerator with shared services configured.

3

Next, our team adapts and provisions the Application Landing Zone required for workloads onboarding.

4

Lastly, our experts conduct a Knowledge Sharing session and present Landing Zone deployment outcomes.
