

CLOUD GOVERNANCE MVP 2- WEEK IMPLEMENTA TION

CONTROL YOUR CLOUD SERVICES

WHY YOU NEED CLOUD GOVERNANCE

- Improve cost management and cloud spendings controls
- Boost cloud cost efficiency
- Make you cloud resources organization structured and standardized across your Azure environments
- Enable consistent security and compliance controls for your data, applications, and services

HOW CAN YOU BENEFIT FROM THE MVP

- 1** Establish cost control measures, monitor resource usage, set budgets, and optimize spending
- 2** Improve resource organization and management via clearly defined Azure organization structure and tagging strategy
- 3** Audit your data, applications, and services via security policies and compliance standards
- 4** Fully automated Governance as Code based on our Accelerator

ABOUT AZURE GOVERNANCE MVP

SoftServe's Azure Cloud Governance MVP is designed to seamlessly introduce you to the Cloud Governance principles outlined in Microsoft's Cloud Adoption Framework.

SoftServe experts will deploy Cloud Governance MVP via our own accelerator to your Azure cloud in audit-only mode with no impact on existing Azure services. That deployment will allow you to see how your cloud deployment follows the best practices and security/compliance standards..

IN 2 WEEKS, YOU WILL GAIN:

- Clear vision of cloud governance
- Deployed and adopted Cloud Governance MVP to your cloud deployment on audit-only mode
- Current state of your cloud deployment in terms of following Azure best practices and compliance regulatory standards
- Integrated Cloud Governance MVP accelerator with your CI\CD process
- Actionable plan to enable Cloud Governance in full-scale Production deployment.
