

# AZURE GOVERNANCE 4-WEEK ASSESSMENT

Gold Datacenter  
Gold Data Analytics  
Gold Cloud Platform  
Gold DevOps  
Gold Application Development

**MAKE A BETTER USE OF AZURE GOVERNANCE**

## **WHY YOU NEED A GOVERNANCE ASSESSMENT**

- Understand security, identity, resource consistency, deployment acceleration, and cost management risks and their impact
- Define corporate policies based on risks
- Establish the governance process
- Plan risks mitigation using Azure Services

## **EASY STEPS TO MAKE A REVIEW SUCCESSFUL**

- 1** Introduction to Azure CAF & Governance
- 2** Current Azure environment review
- 3** Five technical sessions for framework disciplines
- 4** Trade-off analysis & actionable tips for report development
- 5** Results presentation with recommendations and defined next steps

## ABOUT THE ASSESSMENT

The Azure Cloud Governance assessment is designed to evaluate your cloud management process against best practices and industry standards from the Cloud Adoption Framework.

Our experts will go through all aspects of Azure governance: Cost management, Security, Resource Consistency, Identity, Deployment Acceleration. They will make a trade-off analysis and prepare a detailed report.

## IN 4 WEEKS, YOU WILL GAIN

- Actionable recommendations outlining gaps and areas for improvements
- Company policies based on risks related to security, identity, resource consistency, deployment acceleration, and cost management
- Governance process design

### Cost Optimization

### Resource Consistency

### Deployment Acceleration

### Identity

### Security
