

MIGRATION TO AVD: 8-WEEK IMPLEMENTATION

MIGRATE YOUR WORKLOAD TO THE CLOUD

WHY DO YOU NEED MIGRATION TO AVD

- Scale your virtual desktop resources up and down on demand
- Pay for only resources you use currently
- Enable remote and hybrid work with AVD that can be accessed from anywhere
- No Additional Licensing for Desktop-Only Deployments is required
- Centralize desktop management and applications within Azure

HOW CAN YOU BENEFIT FROM THE MIGRATION

- 1** Eliminate the need for maintaining expensive on-premises infrastructure and reduce operational costs
- 2** Instantly scale resources to meet changing business needs, whether it's adding more users or handling peak workloads
- 3** Transition to a modern, cloud-based desktop solution that supports innovation and aligns with long-term IT strategies
- 4** Centralize desktop and application delivery within a single cloud ecosystem, reducing complexity and ensuring a consistent user experience.

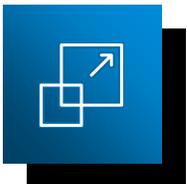

ABOUT MIGRATION TO AVD

SoftServe's 8-week implementation is designed to seamlessly transition your on-premises virtual desktop environment to a fully optimized Azure Virtual Desktop solution. This ensures uninterrupted operations, cost-effective resource management, enhanced security, and a smooth user experience, supported by ongoing training and assistance for your IT operations team.

IN 8 WEEKS, YOU WILL GAIN:

- **A fully Deployed Azure Virtual Desktop Environment:** successfully migrated .
- **Optimized Application Delivery:** Configure and migrate Application Groups, ensuring seamless and secure access to end-users .
- **Flexible Workspaces:** Create and setup Workspaces tailored to your business needs.
- **Cost-Effective Operations:** Implement autoscaling and resource optimization for session hosts.
- **Post-migration support:** Provide assistance and training for your IT team, ensuring a smooth transition and addressing any immediate operational concerns.
